President of Brazil Grooms Army Flyers

RIO DE JANEIRO, March 13. (Exclusive)—The United States Army good-will flyers spent today in Petropolis, Brazil, under the leadership of Major Louis de Brazil received them.

Vare Campaign Manager Denies Fund Charges

WASHINGTON, March 13. (AP)—A statement denying that a "slush fund" was expended in the primary campaign of William S. Vare, Senator-elect from Pennsylvania, was issued today by Harry A. Mackey, campaign manager for the Vare-Beldman coalition ticket.

Will Rogers Remarks:

OAKLAND, March 13. (To the Editor of The Times:—) All we ask of China is that they settle down and let us and England keep on collecting and running their customs for them. I don't see why they should refuse a little thing like that. China owes us four million and we take over their customs revenue. France owes four billion and we are afraid to send them a bill for it. What a great difference in diplomatic relations an army and navy make.

WEST PALM BEACH, Fla., March 13. (AP)—The Farmers' Bank and Trust Company of West Palm Beach, one of the leading financial institutions in this section of the State, announced tonight that the bank would not open its doors tomorrow. The statement was made official by President T. T. Reese, who declared that the closing of three other banks in this city last Tuesday had forced this action.

CLAP GIVEN KERENSKY

Woman Strikes Noted Russian

Blow Administered as She Advances Under Guise of Presenting Gift

Bolshevism Denounced by Muscovite and Fall of Regime Foreseen

NEW YORK, March 13. (AP)—Under the guise of presenting a bouquet of roses to Alexander Kerensky, former Premier of Russia, a woman today struck him in the face. Kerensky had just been to a dinner at the Century Club, where he was to receive a delegation of the revolution led by Kerensky. A woman rose from her seat on the stage and advanced toward Kerensky holding out a small bouquet of roses. As she came face to face with him she said something in Russian and struck him on the right cheek with her right hand. At once the gathering was in an uproar.

SNOWBOUND KANSAS DIGS OUT DRIFTS

Worst Storm in Recent Years Cripples Traffic; One Dies of Exposure

KANSAS CITY, March 13. (Exclusive)—Western Kansas today is "digging out" after the worst snowstorm since 1922. Eleven inches of snow covered the ground at Goodland, Kan., and transportation facilities are badly crippled. One train was held here fifteen hours.

Heavy Snow in Japan Cuts Off Communication

TOKIO, March 13. (AP)—Heavy snow which has swept Japan in the last seventy-two hours has interrupted cable communications due to the crippling of land lines between Osaka and Shimonoseki. Messages from the earthquake zone in the north are progressing satisfactorily, but is being impeded by raw weather conditions.

Many Mexican Rebels Fall in Jalisco Drive

MEXICO CITY, March 13. (AP)—The War Department today announced that a vigorous campaign is under way by Federal troops against new rebel outbreaks in the State of Jalisco. Reports of engagements in which a least sixty-eight rebels and nine Federal soldiers were killed have been received.

Italian Flyer at Montevideo on Long Flight

MONTevideo (Uruguay) March 13. (AP)—Commander Francesco De Pinedo, Italian aviator, today resumed his four-thousand flight, arriving here this morning from Buenos Aires, where he had remained ten days. The aviator was greeted enthusiastically.

SHIPWRECK SURVIVORS TELL STORY

Crew of Schooner Noyes on Storm-Tossed Hulk Ninety-six Hours

HALIFAX (Nova Scotia) March 13. (AP)—Ninety-six hours on a galley-driven hulk of wreckage 300 miles off the Virginia Cape was the story told in this port today by Capt. W. S. Rutledge and seven of his men, survivors of the schooner Noyes, which was wrecked on the coast of Nova Scotia. The schooner, which was bound for St. John's, Nfld., was driven ashore on the coast of Nova Scotia. The crew of the schooner Noyes, which was wrecked on the coast of Nova Scotia, told the story of their ninety-six hours on a galley-driven hulk of wreckage 300 miles off the Virginia Cape.

King Alfonso's Illness Takes Favorable Turn

MADRID, March 13. (AP)—King Alfonso of Spain, who has been suffering from grip, was reported feeling better today. His physicians expressed the opinion that his condition was not serious. The King was reported to be able to walk for long periods, indicating that his illness was taking a favorable course.

LOST FLYERS TELL STORY

Tale of Hardships Recounted by Uruguayan at Hands of Moorish Tribesmen

CASA BLANCA (Morocco) March 13. (AP)—Vivid tales of hardships endured, of trouble incurred by fear of attacks from hostile tribesmen, and of joyous relief when he and his party arrived safely at Cape Jubi were told by Maj. Tadeo Larre-Borges after the party had reached the Spanish camp here.

Remember This

The worst about putting things off till tomorrow is that someone else is not to do it today.

CHANGE SOUGHT IN ESTATE TAX

Angelo Sponsors Bill to Lighten Burden

Inducement to Wealth Held Benefit to State

Attitude of Officials May Defeat Measure

BY C. A. JONES

"Times" Staff Correspondent

SACRAMENTO, March 13. (Exclusive)—Determined efforts are being made here to obtain favorable consideration for Senate Bill 704, introduced by Senator Harry A. Chamberlain of Los Angeles, which will substitute for the present inheritance tax law an estate tax along the lines of the present Federal law.

The present inheritance tax is termed inequitable by the sponsors of Senator Chamberlain's bill, who declare that the adoption of the proposed legislation will result in great benefit to California in local taxes and increased business activity.

Opposition is offered, however, by State officials, while Gov. Young, following a conference with tax experts, remains noncommittal.

At present each bequest in the estate is subjected to individual taxation. This, according to Dr. G. C. Sabchik of Bakersfield, president of the California Taxation Improvement Association, not only complicates the entire question, but in the case of great funds and bequests of advanced age sangles up the division of the estate, with the imposition of heavy administrator's fees.

Under the estate law, Dr. Sabchik said, the tax is levied upon the entire estate at once and the whole matter is cleaned up expeditiously.

WEALTH DRIVEN OUT

"There are thousands of wealthy men with homes in California," said Dr. Sabchik today, "but, due to our inheritance tax, they maintain their legal residences in some States with kinder estate laws. Naturally, as they refuse to place their great wealth under the protection of California, our industries are denied their support, our institutions are ignored and their property is unavailable for local assessment."

"Just today I received a telegram from a Southern California chamber of commerce urging adoption of this bill because this city wishes its wealthiest man to transfer his legal residence from Florida to California."

"Practically all the chambers of commerce and organizations of business men in Southern California are supporting this bill."

"In addition to its other advantages, under the estate tax a large credit is afforded the Federal government in collecting the Federal tax."

"Controller Riley is opposed to the bill on the ground that it will decrease State revenues. Our investigation has determined that the State will lose not more than \$1,500,000 annually, while this sum will be more than made up by the suggestion of resident wealth for local taxation and increased business activity subject to State taxation."

SURPLUS FOR POLITICS

Former Gov. Richardson presented today to the Legislature a bill with a surplus of nearly \$30,000,000. The administration is clinging to this money, however, and refusing to release it.

6000 MILES TO COURT

BUTTE (Mont.) March 13. (Exclusive)—Traveling 6000 miles, to fight a case in court, Mrs. Annie Kershner crossed the Atlantic to face an action filed by her husband, who was in Ireland when summons was served, charging desertion.

PARIS, March 13. (Exclusive)—

The Paris chautauque who just missed them, the pedestrians seem to believe the chauffeur misses them because his aim is bad.

The chauffeurs do not like the pet name at all. They report with the customary "pig," "old package," "kind of a thief," "sort of dirt" and "fat-head."

to reduce any taxes, while at the same time it plans to expend several millions in addition to the \$190,000,000 budget for politically inspired institutions.

Hope of writing the estate tax into the laws is practically nil in the face of administration opposition. Efforts are being made, however, to induce Gov. Young to favor the proposal, or at least to press the measure before the Tax Revision Commission, which will begin to investigate the tax structure of the State following adjournment of the Legislature.

Associated with Dr. Sabchik in his drive for the bill is Prof. Roland A. Vandegrift of the California Taxpayers' Association. Mayor Coyer was present at the conference in the Governor's office and urged consideration of the Chamberlain bill. The bill has been referred to the Senate Taxation and Revenue Committee, but no hearing date has been set.

Bullets Riddle Another Chicago Gangster Chief

CHICAGO, March 13. (Exclusive)—Gangland's mysterious vengeance took overtook another chief of the notorious and once powerful Genna gang.

Alfonso Piro, bootlegger, black-hand extortionist, gun-pots collector for the Gennas, was found riddled with bullets in a basement beside the Norma Inn, 830 Taylor street.

Evidently, detectives said, he had been killed elsewhere and his body dragged to where it was found—the very heart of the section over which he had long held the dominion of terror.

Lisly Takes Rich French Steeplechase

ANTWERP (France) March 13. (Exclusive)—Count De Gramont's Listy captured the 50,000-franc Prix d'Autriche steeplechase. Henri Coulon's Leonaud was second, and Rene Samalons's Rodame was third. The race was run in the rain.

The winner paid \$25.00 for a ten-franc ticket.

ARCHITECTS HOSTS TO BUSINESS MEN

The Hollywood Architects' League will be host to the Hollywood Business Men's Club at the monthly dinner meeting at the Hollywood Chamber of Commerce tomorrow. Charles Kyson is president of the league. A special program will feature Betty Lythe, motion picture player. Dr. Ford Kofin will play the piano and Senator Hortense Herrera will present several dances of Andalusia and Madrid. George Kerichenko and Margaret Durand will sing. The orchestra from the University of Southern California will supply music during the dinner. Kay M. Grier will act as toastmaster and the address of the evening will be given by Charles Kyson.

NINETEEN BILLS UP FOR PASSAGE

Legislature Committees Have Reported 600 Measures

Senate Has Voted 143 and House Total of 128

Action on State Bar Special Business Tomorrow

SACRAMENTO, March 13. (Exclusive)—Nineteen bills are on the calendars for final passage in the Legislature when it opens its twenty-ninth legislative day tomorrow. The committees in the two houses have reported out about 600 of the 2040 bills introduced in this session. The Senate passed 143 of its bills and the Assembly 128 of those which originated in the lower house. Indications are that some 700 bills will be tabled in committee.

The Assembly has calendar for final action, the bill prepared by the State Bar of California, a self-governing organization for the lawyers of the State to regulate the practice of law. This has been made a special order of business for Tuesday.

BILL ON FAIR FUNDS

Other Senate bills in the Assembly on their third reading calendar for final action are: Senate Bill No. 43, a new general law permitting incorporation of credit unions and providing for their maintenance; Senate Bill No. 320, providing that any moneys appropriated by the State for encouragement of county or district fairs shall be administered by the Department of Finance for the purpose of the fair; and Senate Bill No. 342, all J. M. exemptive law or bags from law governing strays.

Senate Bill 219, Boggs, the bottle tubercular law.

Senate Bill 230, Handy, Colusa county government bill.

Senate Bill 443, Slater, increase pay of Sonoma county probation officer.

Senate Bill 494, Handy, Glenn county government bill increasing number of salaries.

Senate Bill 181, Ingram, Sierra county government bill increasing salaries.

Senate Bill 504, Handy, changes place of meetings of county or district meetings of corporations.

Senate Bill 292, Bred, technical bill on laws relating to officers of corporations.

Senate Bill 221, Boggs, exempts mutual co-operative and nonprofit agricultural corporations from law providing for cumulative voting when by-laws of such organization specifically prohibit it.

Senate Bill 215, Johnson, provides for continuation of joint highway districts for joint purposes in event that State assumes continuation of road.

THREE ASSEMBLY BILLS

Senate Bill No. 65, Bred, broadens jurisdiction of county board of supervisors in relation to condemnation proceedings and incurring bonded indebtedness.

Senate Bill No. 68, Bred, changes municipal utility district law to provide for annexation by municipalities of territory within the district.

Senate Bill No. 72, Bred, amends municipal utility district law to grant districts the same rights and authority to invest surplus funds as enjoyed by counties and municipalities.

The Senate has on its third reading calendar the following bills: Assembly Bill No. 494, West, provides for publication of an index of laws of California.

Assembly Bill No. 243, Byrne, increases number of municipal judges in Los Angeles from twenty-four to twenty-five.

Assembly Bill No. 576, Little, revises proof of statutes code provision to permit judges to take judicial notice of books of printed statutes.

SEVEN CHINESE KILLED IN SINGAPORE BOAT

SINGAPORE (Singapore Settlement) March 13. (Exclusive)—Seven Chinese were killed and eleven wounded by the police yesterday when the latter fired a shot warning the boat.

The disturbance grew out of a memorial celebration in connection with the second anniversary of the death of Sun Yat-sen, the nationalist leader. One European police inspector was severely wounded. The city was quiet today.

ENGLAND SHOWS INTENT TO RECOGNIZE NATIONALISTS

LONDON, March 13. (Exclusive)—Great Britain is considered here to have taken another step toward further recognition of the Nationalist regime in China, the decision was made today, British Minister at Peking, to maintain a senior member of the British Legation in continuous residence in Hankow.

The functions of this representative will be to keep in contact with Eugene Chen, the Chinese Foreign Minister, and with other Nationalist officials at Wuchang across the Yangtze.

Sir Miles will make periodic visits to Hankow.

Reports of internal dissension in the Kuomintang, or People's Republic party, still continue. Some observers maintain that the left wing extremists are in the majority on the central executive council, from which the Nationalist government derives its authority.

This belief is based on the adoption of two Communist resolutions by the Council yesterday. One of these resolutions urged the safeguarding of the policy of alliance with Russia and with Communists generally and another emphasized the necessity of correcting "feudal ideas in individualism."

This latter resolution is said to have been aimed at Chang Kai-shek, the Nationalist commander-in-chief, who has been reported in opposition to the left wing of the party.

SOVIET MAY RECOGNIZE CANTONESE REGIME

WASHINGTON, March 13. (Exclusive)—Reports that Soviet Russia has decided to recognize the Cantonese regime at Hankow as the de facto government of China reached Washington today from Moscow, adding a new element of complication to the Chinese mud.

Confirmation was not available at the State Department, but the reports from other sources were described as reliable.

Soviet recognition against the Peking government over detention of Mrs. Bordin and other Russians at Tientsin in Shanghai is believed in diplomatic circles to have brought about the Soviet recognition.

It is expected that the flight will be attempted in the autumn of 1928 after a flight from Seattle to Buenos Aires, he said. The North Pole flight can be made in two days and to Tokyo in four, it is expected.

Dr. Eckner is in Seattle to prepare plans for the establishment of an air line between Seattle and Buenos Aires.

BOY MAY DIE OF WOUND

VALLEJO, March 13. (Exclusive)—Walter Glendle, 14 years of age, of Benicia, lost the sight of his right eye and may die because of the accidental discharge of a small rifle with which he was playing today.

WAR OVER CHINA FORECAST

Refugees Arriving Here Express Alarming View of Conflict in Orient

China's strife may prove the torch which will set the whole world afire, according to some of the sixty-six white men, women and children arriving from the Orient yesterday in the Dollar liner President Taft.

Several who had been under fire in interior China looked mighty good as they declared.

The alarming view was the studied conclusion of men for years in important posts in China and friendly to the Nationalist government.

T. J. Jones, president of Western China University, spoke of the Nationalist party, represented by the high army officers and intellectuals, and the left wing, catering to the masses, and represented by a Russian wizard, Mike Borokh.

The latter, described as one of the foremost national political agitators, supplies Chiang with munitions and propaganda, and so far has avoided a split.

W. J. Jones, president of the Medical College and China's former postal adviser in Southern China, said, and is one of the few sources for war funds, the army receipts the past eight months.

Schaumfeller foresees either a compromise between the Nationalist government and the pro-Chinese yielding to the pro-Russian, or possible encroachment of Russia on Japan's sphere of influence in Manchuria, and armed conflict between the great powers generally.

Capt. J. H. Eyrer, United States Marine Corps, also declared to enter his son, Robert, in a Pasadena school. He then went on to declare that he had been taken from the American Legation Guard at Peking. The liner will sail for San Francisco, San Francisco and the Orient with sixty passengers and 3000 tons of Los Angeles cargo.

URGENT GENEROSITY

"Do the generous thing," he advised. "A frank statement that America favors to rob Russian agitators of the strength of their propaganda."

His college is 1800 miles west of Shanghai, has 1000 students and a faculty of sixty, mostly whites, of whom all but six men have left. Dr. Jones said.

CANTONESE WIN WARSHIPS

(Continued from First Page)

was organized to act in any emergency.

A feature of the parade was the presence of a recently recruited Russian company of 100 men, who were then veterans of the Chinese army.

It is believed that this company is the only mercenary body employed by the Nationalist government in the Cantonese government, but in the volunteer corps.

W. J. Jones, president of the Medical College, returned today from Shanghai after an unsuccessful attempt to release Mrs. Bordin, wife of the Cantonesse adviser, and three Russian sailors, who were arrested by the Shanghai police more than a week ago.

Mr. Lunde said that the Shanghai leader, Chang Tsung-chang, had promised to release Mrs. Bordin in exchange for the release of the three Russian sailors, but that since the matter was now in the hands of the Shanghai police, he was powerless to take any action without approval from Peking. The Russian interpreter this as a process of "passing the buck."

The Russian, a Soviet vessel, sailed from Shanghai yesterday, and is being used to transport Shanghai troops on the Yangtze.

There are little indications of a Russian ship to return to the Yangtze.

A state of virtual panic prevails among the Chinese in the city of the native city of Shanghai, who are feeling the heavy hand of the Shanghai police, who are believed to be doing much to swing national businessmen over to the Nationalist cause.

Chang Tsung-chang's troops are said to be maintaining the evil reputation they have gained in other parts of the country. The troops have been looted and many merchants are afraid to open their doors. Large sums of money have been demanded at the point of the bayonet while the native police are powerless to interfere.

GIGANTIC RAIL MERGER TALKED

(Continued from First Page)

to reach the eastern portal of the tunnel. At present the Moffatt road has no western outlet. It merely is a dead end, a road with no outlet to the west.

Now that the tunnel is almost a reality, the cheap and easier western outlet for roads using it will be through the construction of a connection with the western portion of the Moffatt line, to Dotsen Station on the Denver and Rio Grande line running to Salt Lake City.

This would connect the Denver and Rio Grande mileage by 370 miles. This possibility is undoubtedly the basis of the reports of the formation of a new transcontinental system, based on the Burlington and Rio Grande. Officials of the Burlington, however, declare that, although their road has always stood ready to co-operate with the Moffatt line and expects to take through passenger and freight arrangements, nothing like possession or lease has ever been made.

More in fact than traffic interchange such as that between the Chicago and Northern lines, and the Union Pacific and Southern Pacific at El Paso.

New York rumors that Santa Fe contemplates use of the tunnel are emphatically denied by Santa Fe officials and are improbable from the railway map. But reports in Denver call attention to the fact that the key to the tunnel and the new route made possible by it. Some engineers say the eastern end of the tunnel could be reached in no other way. The Moffatt line has a fifty-year lease on the tunnel at a rental of \$345,000 for the first ten years, but there is a saving clause in the lease permitting the tunnel commission to lease use of the bore to other roads. The Moffatt road could lease the use of the tunnel to the Union Pacific and could obtain the right to operate through the bore. There has been a lot of conferring about this.

The Denver and Rio Grande and the Western Pacific have recently passed through reorganization, with changes in the ownership of the line. The Denver and Rio Grande line has gone into strong hands. The Moffatt road has emerged from receivership and is in strong hands. Colorado and Rockefeller interests are being in evidence in the personnel.

The Moffatt road says it will welcome satisfactory traffic arrangements with other roads. Strong interest has been displayed by the Denver and Rio Grande in the construction of the Dotsen cut-off connecting the western portion of its Salt Lake line with the tunnel. It is likely to see that both the Union Pacific and the Rock Island also have potential interests in the new traffic alignments which the tunnel will make possible.

Such facts add the rapid pulse and vivid imaginations of the Denver altitude, together with the active Wall Street trading in railroads and the renaissance of railroad empire building in the Pacific Northwest all combine to produce an interesting report and possibilities.

BRIBE CHARGED IN JAIL BREAK

Recaptured Chicago Convicts Confesses to Plot

Three Guards Asserted to Have Received \$1500

One of Sextet Who Fleed Still Missing

CHICAGO, March 13. (Exclusive)—Confession that a \$1500 bribe had corrupted three Will County Jail guards while saws and guns were smuggled to six men under death sentence was made by one of the escaped trio, Robert Torres, today. The six who were to have been hanged last Friday for the murder of Deputy Warden Peter Klein of the Joliet penitentiary during a jail break last fall, had been granted a reprieve last Thursday by Supreme Court Justice De Young.

Thirty-six hours after the way of execution had been granted the convicts staged another break. Three of them, Bernard Ross, Gregorio Rios and Torres, all Mexicans, got away. In the battle with the police that followed one policeman was killed and one wounded. Torres was captured and Rios was shot and seriously wounded. Ross still is at large.

The three other murderers, Charles Duchowski, Charles Slader and Walter Stalsky, did not succeed in getting away.

WILL SHAKE CITY

Torres's admission, which State's Attorney Hjalmar Rahn said "will shake Joliet," was made in the face of the fact that the escaped trio did not get away, that \$1500 had been paid for the "escape." Duchowski is said to have made a full confession in Joliet.

Torres was confronted in the all-night session with the sweetest of companions until the end of hostilities in China because arms and "red" propaganda were found on her when she was taken from the ship.

Ros, according to Torres, was the director of the escape plot. "He did the thinking and arranging," said Torres. "We played the guitar."

It was a three-year cat and mouse game that drowned the sound of sawing bars.

Torres confessed that the \$1500 had been obtained by collections among the members of Mexican colonies of South Chicago and nearby places, aided largely by efforts of the Mexican Consulate, in the belief that the money was to be used legitimately for an appeal for the three Mexicans.

He said that under the "agreement" the \$1500 was "swung" to the three guards and that as a result a Mexican married woman living near Joliet was permitted to bring two guns to the Mexicans, together with saws and bills.

Deputy Sheriff Walter Hibbons, one of the two special guards, traced up the three Mexicans, is under arrest in Joliet charged with aiding and abetting the escape. Five other suspects are also under arrest.

Duchowski's story, it is said, was prompted by anger because the three Mexicans, after gaining their freedom, left leaving their three American companions, Stalsky, Slader and Duchowski, in their cells. They had been furnished with saws, but did not have time enough to use them.

Rios, who is in the County Hospital, and Torres will be held in Chicago pending inquiry into the death of Policeman Leo Grant, who died Saturday night of a wound suffered in combat with the three Mexicans when they were intercepted in their flight to Chicago.

CULT HEADS AT LECTURE IN OAKLAND

High Priestess of Order "Explains" Philosophy of Evolving Superman

SAN FRANCISCO, March 13. (Exclusive)—Mrs. Gertrude Wright, 80 years of age, high priestess of the cult whose headquarters in Oakland was raided last week following arrest of the leaders on a charge of contributing to the delinquency of a minor, lectured here today on the cult's philosophy and predicted that the "superman" would be evolved by "the higher processes of thought."

"He will not evolve through carnal desire, but through an evolution of that which is good," said Mrs. Wright, known in the cult rites as "Zareda."

Russell Allen, Los Angeles radio man who held the title of "Omara" in the cult, and who obtained freedom on \$750 bail last night after being returned from Los Angeles to face a charge similar to the one filed against Mrs. Wright, attended the lecture with his son, Lloyd, 18. Mrs. Wright, 25, a blonde, dressed and released on bail, appeared on the platform with Mrs. Wright.

Speakers at the meeting ignored the arrests, but Allen denied the charges outside the meeting hall and declared that if his son had engaged in improprieties he had done so without the father's knowledge.

Ford Libel Case Pleading to be Argued Today

DETROIT, March 13. (Exclusive)—Preliminary arguments in the \$1,000,000 libel suit against Henry Ford and his publication, the Dearborn Independent, instituted by Aaron Sapiro, Chicago lawyer and farm enterprise organizer, will be heard in Federal Court here tomorrow.

Attorneys for the plaintiff will ask permission to withdraw certain sections of their complaint and the Ford lawyers are to argue their new plea which was entered last week.

United States Judge Fred S. Raymond of Grand Rapids, presiding in the case, after examining the bills of the opposing sides, suggested that they be amended on the ground that both contained matter irrelevant to the case. The sections amended were not made public.

The case proper is scheduled to get under way Tuesday.

San Diego Diver, Trapped in Bay, Escapes Death

SAN DIEGO, March 13. (Exclusive)—Trapped at the bottom of San Diego Bay on his first trip down as a professional diver, P. R. Harty narrowly escaped death here today. He was rescued only after he had been hauled completely around the sunken hull on which he was working and was taken out of his diving armor in a precarious condition.

Harty slipped under the keel of a fishing boat hull he was examining. When he signaled to be pulled up the line under the hull drew him back to the bottom. Several times the crew above pulled and slackened before the line cleared from under the hull and permitted him to be hauled out instead of dragged down into the harbor coos.

Spectacle Case Saves Life of Hold-up Victim

SAN FRANCISCO, March 13. (Exclusive)—A spectacle case which deflected the bullet of a hold-up man saved the life of George Leandros, a young man who was in the store at night when two men tried to rob his drug store in the fashionable San Francisco district.

Leandros ran out when a gun was pointed at him and one shot was fired at him as he turned to see if he was followed. The bullet struck the spectacle case just over his head.

MONDAY MORNING

PRELIMINARY TO ARMS MEET ON

Which, Delegate Confers With Hugh Gibson

New Offers May Bring in France and Italy

Scope of Limitation May Be Extended at Parley

(By Chicago Tribune)

Paris, March 13. (Exclusive)—Preliminary conversations on the subject of naval limitation began today with the arrival of Lord Robert Cecil, British ambassador to the United States, who conferred with the American ambassador, Hugh Gibson.

Lord Cecil's mission is to discuss the possibility of extending the scope of the limitation conference, which is now limited to the United States, France, Italy, Japan, and Great Britain.

The American ambassador, Mr. Gibson, is expected to return to the United States tomorrow, and it is believed that the conference will be extended to include the United States, France, Italy, Japan, and Great Britain.

Young Frick, who is expected to arrive in Paris tomorrow, is believed to be the only one of the group who will be able to attend the conference.

OUR HISTORY IN PICTURES

663

The Beginning of the Gettysburg Campaign.

by J. CARROLL MANSFIELD

AFTER DEFEATING HOOKER'S UNION ARMY AT CHANCELLORSVILLE, THE CONFEDERATE ARMY OF NORTHERN VIRGINIA WAS EXULTANT AND EAGER FOR NEW TRIUMPHS. HAVING THE GREATEST CONFIDENCE IN HIS TROOPS, GEN. LEE NOW PLANNED TO INVADE MARYLAND AND PENNSYLVANIA AND SHIFT THE SCENE OF FIGHTING TO UNION SOIL.

HE BELIEVED A SUCCESSFUL INVASION OF THE NORTH MIGHT RESULT IN THE CAPTURE OF WASHINGTON OR BALTIMORE AND LEAD TO THE RECOGNITION OF THE CONFEDERACY BY EUROPEAN NATIONS. IN PREPARATION FOR THE CAMPAIGN, LEE STRENGTHENED HIS ARMY AND DIVIDED IT INTO THREE CORPS UNDER THE COMMAND OF LIEUT. GENERALS LONGSTREET, EWELL AND A. P. HILL.

ON JUNE 10, 1863, EWELL'S CORPS SET OUT FROM CULPEPER (VA.) FOR THE BENDONDAH VALLEY. ADVANCING SWIFTLY, EWELL DROVE THE FEDERALS FROM WINCHESTER AND HARRISBURG, TAKING MANY PRISONERS AND CANNONS. HE THEN PRESSED ON THROUGH MARTINSBURG, AND ON JUNE 16 BEGAN CROSSING THE POTOMAC AT WILLIAMSBURG.

A. P. HILL'S CORPS MOVED FROM FREDERICKSBURG AND FOLLOWED EWELL'S ROUTE, BUT CROSSED THE RIVER AT SHEPHERDSTOWN. LONGSTREET BROUGHT UP THE REAR AND BY JUNE 26, LEE'S WHOLE ARMY WAS NORTH OF THE POTOMAC.

CASH GIVEN TO OPERATE NATION CUT

Total of \$4,211,201,270 for Next Year Provided by Last Congress

WASHINGTON, March 13. (AP)—A total of \$4,211,201,270 was provided for current expenses of the government for the fiscal year beginning July 1. Chairman Madden of the House Appropriations Committee, announced today in summing up the financial activities of the recent session of Congress.

The amount is \$242,800,535 below that made available during the present fiscal year, but the chairman said the reduction would have been only about \$100,000,000 if the Senate had passed the second deficiency measure.

Simultaneously with the chairman's statement Representative Byrne of Tennessee, ranking Democrat on the committee, issued a statement declaring that an analysis of the appropriations for 1928 "shows that the cost of the Federal government is to grow despite the claims of economy."

Mr. Madden pointed to many prior increases in the activities of the government and maintained that as long as the country's normal activities are continually enlarging "it is futile to expect that the relationship between the government and the expanding interests of its people can be maintained without an increasing cost."

DEER EXPECT MORE WINTER YOKEMITE, March 13. (Exclusive)—The weather here has been spring-like with the waterfalls running high—still the park deer refuse to shed their horns, evidently expecting more winter.

blockades, embargoes and contraband has been defined and accepted by the powers.

The American delegation estimates that the allowances for tonnage of cruisers, submarines and destroyers allocated to France and Italy will be so generous as to require at least ten years for the powers to build up to them.

At the expiration of that period, if the Paris and Rome governments insist on exceeding their quotas, the three powers will re-examine the tonnage agreed on for themselves.

LIMIT ON ARMS MAY BE EXTENDED

WASHINGTON, March 13. (AP)—With the Geneva three-power naval conference assured, some Washington officials are wondering whether an agreement between Great Britain, the United States and Japan to limit sharply building programs in 10,000-ton cruisers may not be a natural starting point for the proposed extension of tonnage limitations to other than capital ships and airplane carriers.

The size limit of 10,000 tons was fixed by the Washington treaty and covers any type of combat craft except battleships and aircraft carriers. That treaty also forbids the arming of any but capital ships with larger than eight-inch caliber guns.

The whole naval controversy during the recent session of Congress involved the building program of these supercruisers of the full maximum size permitted by the Washington treaty.

No nation has as yet any of these treaty cruisers in actual commission, although Great Britain has launched several and the United States and Japan are actually constructing similar vessels. All three governments, however, have extensive 10,000-class building programs authorized.

The American cruisers will cost roughly \$16,000,000 each. Costs to other governments will be at least approximately that figure. Vessels of this size will require large crews which make them expensive in operation.

NEW YORK'S CRIME BODY MAKES GOOD

Commission's First Year of Operation Praised by National Organization

NEW YORK, March 13. (AP)—States which have delayed the establishment of State crime commissions until they could see "how New York did it" may go ahead now with perfect assurance that they are doing an effective thing toward reducing crime, in the opinion of the National Crime Commission.

The splendid showing made by the New York State Crime Commission in its first year of operation, "completely vindicates the soundness of judgment as to the great work a commission of this kind can do."

"It is our intention to bring the report the commission has just made to the Legislature to the attention of every Governor and legislative leader of every State with a renewed request that they seriously consider establishing by statute a commission of this general character with the same broad powers and scope."

German Sea-Line Buys New Ships for Trade Boom

BERLIN, March 13. (Exclusive)—Two huge luxurious liners have been ordered by the North German-Lloyd for the New York-Bremen service.

This company endorses the optimism of the Hamburg-American Line, expecting a shipping boom, mostly that of traveling activities of American tourists.

In the past year North German-Lloyd has succeeded in increasing its tonnage by 190,000 from 613,000 to 803,145 tons.

In view of the expected boom, it has ordered not only the two liners, but fifteen large new express and freight steamers.

The North German-Lloyd report stresses the fact that the new ships will be paid for from the income of the company, and not from money from the United States in settlement of its alien property claims, although it says that it is confident that the property confiscated by the United States during the war will be refunded.

Girl's Admirer, Target of Rival, Near to Death

HACKENSACK (N. J.) March 13. (Exclusive)—Evelyn Silvers, 15 years of age, of New York, N. J., today prayed for the life of a town sheik who loved her too well to stay away from her.

Meanwhile Elisha Smith, 21, the sheik, who got a bullet in a reward for his uncontrollable love, lay fighting for his life in Hackensack. And "Red" Hoy, 22, star basketball player, who shot his rival for the love of Evelyn is in jail facing the electric chair if Smith dies, and a long term in prison if his victim lives.

It was a small-town triangle that led athletic "Red" to shoot Smith. Hoy learned today.

Hoy had a "day" with Evelyn Saturday night. He was at her home when Smith called. He asked "Red" to the outside to "Red" picked up a revolver belonging to Evelyn's brother George and on the street shot the Smith in the chest. It is asserted. Smith is in a critical condition.

Nevada Battle Over Gambling to be Renewed

RENO, March 13. (AP)—The battle over wide-open gambling will be renewed in the legislative hall of Carson City tomorrow, when a motion for reconsideration by Assemblyman C. E. Hamilton comes up before the House. If the motion fails the bill will go to the Senate. The first clash in the upper House will be in putting it in committee.

The foes of wide-open gambling will want to place it with the Committee on Public Morals, while the friends of the measure will try to steer it to the Ways and Means Committee.

BAY REGION'S WATER SYSTEMS MAY MERGE

SAN FRANCISCO, March 13. (Exclusive)—Negotiations are under way for the purchase of several water distributing systems in the Bay area by the Associated Public Utilities Corporation of New York and Wheeling, W. Va. The systems sought are the Peninsula Water Company, serving San Mateo and immediate vicinity; the Santa Rosa Water Works and the properties of the Santa Rosa distributing system. An audit of the books of all three is now in progress as part of the financial details to be worked out. It is announced that the authorization of the State Railroad Commission will be sought.

OKLAHOMA WANTS ITS ERRANT BOY

Won't You Come Home, Will Rogers? Wailing Plea to Roaming Humorist

OKLAHOMA CITY, March 13. (Exclusive)—Some time before the Oklahoma Legislature adjourns a joint resolution will be voted calling on Will Rogers, "Oklahoma's cowboy humorist," to return to the old home town of Claremore, or at least quit playing favorites out in California. That is the announced intention of Tom Knight, of Claremore, member of the House, and Senator Fiedler of Oklahoma City.

"We fear Will has wandered too far away from Oklahoma," Mr. Knight said. "We certainly believe he belongs to us rather than to that film colony."

"And, moreover," Senator Fiedler declared, "if he is looking for political honors we can offer him something more substantial than being Mayor of a town called Beverly Hills. Will should be ashamed. We've got some towns here in Oklahoma with some real he-namess where Will could be Mayor, Chief of Police, justice of the peace, City Manager, anything, if he would settle down here and live. Will even could be Governor if he'd quit fooling around with small-town politics out in California. Another thing, we view with alarm the disquieting reports that emanate from the California film colony. We point with pride to the calm and peaceful existence here in Oklahoma. We say, come home, Will."

The joint resolution is to be introduced some time near the close of the session after appropriations have been handled.

When this became known, the Idaho Senator was reluctant to discuss his action, explaining that he was afraid he might be misunderstood. He said he had guarded his refusal to accept the salary increase as one of principle, far removed from politics or personal need.

"I went before the people of my State and asked them to elect me to a position paying \$7500 a year," he added. "They elected me and I do not feel that I could accept an increase in good faith without giving them an opportunity to express themselves."

The Idaho Republican declared he did not believe the present \$10,000 salary of Senators was exorbitant, but contended that it should have been arranged so that it became effective at the end of Senatorial terms.

FOREIGN STUDENTS VOLUNTEER ADVICE

LAWRENCE (Kan.) March 13. (AP)—Resolutions urging complete independence for India and declaring a stable government has been established in the Philippines under the requirements of the Jones Act were adopted today at the closing session of the first Pan-Pacific Conference of foreign students of Eastern Kansas colleges. About 100 foreign students attended the conference.

MILWAUKEE RAILWAY SUPERINTENDENT DIES

MILWAUKEE, March 13. (AP)—Walter J. Thiele, 54 years of age, general superintendent of the Chicago, Milwaukee and St. Paul Railroad, in the middle district, died suddenly of a heart attack at midnight Saturday. He entered the service of the company thirty-eight years ago as a telegraph operator.

VICE-PRESIDENT
ROOM FOR HUNTHunt of Recall Answered
With New SloganDemocratic Committeeman is
Advised to Form ClubsHunt Caught Napping
at Last Convention

March 13. (Exclusive)—
The "vice-president" of the
Democratic party, who has been
buried back to back to threats
of proceedings against Arthur
Hunt. The newest Hunt
has just been launched, ap-
pointed by Louis B. Whitney, chair-
man of the State Democratic Com-
mittee and Hunt, chairman of
the County Democratic
Committee and manager of Hunt's
primary campaign.

Hunt suggests that they are mail-
ing suggestions to all Demo-
cratic Committeemen, Con-
gressmen, State Governors, Con-
gressmen, State chairmen and farm
owners to use the Union, asking
for a "Hunt-for-Vice-
President" slogan.

Hunt is a great statesman, a
great leader, a great organizer, a
great fighter, a great speaker, a
great writer, a great thinker, a
great doer, a great man. To review the
life of this great man, it alone
is enough to drive us to his qual-
ities and those for this high
position.

The members of the Hunt faction
are known to be caught napping
at the last. As a matter
of fact, they had made
arrangements at New York to
elect Hunt for Vice-President.
Hunt, a devoted Hunt
and former member of the
legislature, was to make the
case as soon as it should be
in the line of Hunt.

WHEN ROYALTY GREET ROYALTY—IN FIJIS

The Duke and Duchess of York were given a rousing reception by the native chieftains on their visit to the Fiji Islands recently. The Duchess is shown shaking hands with the grandson of the late Fijian King Cakobau. The Duke is seated at her right. (F. & A. photo)

Men's Suits Come Back Clean as a New Penny

10 Operations guarantee it

The extra things we do assure you that your suit comes back posi-
tively clean and odorless. Many of the following operations are
exclusive "CITY DYE" processes:

- 1.—Every suit checked, classified and tagged with a number corresponding with name of owner. Pockets examined and any contents found are filed for safe return to owner.
- 2.—Pockets turned wrong side out—lint cleaned out. Seams cleaned.
- 3.—Trousers cuffs opened and thoroughly hand brushed. After suit is cleaned, cuffs are re-sewed as when new. This is an extra service which spells the difference between mediocrity and thoroughness.
- 4.—All dust is then extracted by a special air vacuum process.
- 5.—Suit immersed in scientifically prepared solution of pure distilled benzine—the most efficient cleaning fluid. Cleaned in this solution for 25 minutes. Then rinsed twice in clean solutions for 20 and 5 minutes respectively.
- 6.—Suit then placed in a chamber where fluid is extracted and suit thoroughly dried.
- 7.—The benzine odor is then scientifically extracted by a neutralizing air vacuum.
- 8.—Suit then examined. Any buttons missing are sewed on, any holes in pockets repaired. New linings substituted for old ones if owner desires—at small additional charge.
- 9.—Suit then sent to shaping room, modeled and finished by hand. Shoulders, lapels, front of coat and back shaped and styled as when new.
- 10.—Final inspection. If O.K. placed in dust proof cabinet ready to go back to you.

The VOICE
By ZONA GALE

ASSET had engaged passage on the Titanic for her first crossing. Any one sailing at that time would have done the same, provided he could still get passage. Asset was delighted at the promise of the swift, luxurious voyage, and he said to his friends:
"I'm off—on the Titanic—yes. Better come along."
He cabled his fiancée and his firm.

"It's conscience," he said bluntly, "working as it was intended to work."

He was walking in Regent street when he first became aware of a faint impulse within him, less than a force, more than a fragrance, an impulse to cancel his passage. At first he did not notice, and when this urge did break through to his consciousness, he understood that it had been beating at him for a long time. As soon as it was definitely noticed it became a clear and clamorous command.
He argued the matter with this inner disturber. Cancellation was impossible. His arrangements were all made. Invitations had been refused, his cables had been sent, and Marie would be counting the days. There was now no earlier boat, and he was averse to all postponements. In reply to all this came three distinct words: "Cancel your passage."
Now, Asset was accustomed to obey this inner impulse. He hadn't an idea what it was, and in general he thought if you classified a thing you had disposed of it. But though he called this voice the subconscious, he continued to obey it, secretly and blindly, but pretty consistently. And the more often he obeyed it the more pressing it became, until, as now having listened, he could not dismiss it.
So he canceled his passage, sent off two more cables, and tucked himself into the cabin of an old liner sailing a day later. He was on the deck of this old liner when he was told of the message from the Carpathia, crying the Titanic's fate.
Shaken by the disaster he was yet kindled by the memory of what had occurred. He had been saved—but how? Unquestionably he could not be the only one to whom this saving voice had spoken. There must be people on this very boat.
He went among the passengers and asked them, nakedly, if they had had

ENGLISH CATTLE SMALLER SO JOINTS WILL GO INTO OVENS

LONDON, March 13. (P)—Civilization has become so compact that English cattle are now being bred to produce joints small enough to fit the small ovens of flats. The good old days of joints and roasts of great weight are gone forever.
Changes have gradually taken place in the breed of cattle of smaller proportions, and the Smithfield Club taken passage and given it up for a similar reason and eleven who had thus been prevented from taking passage at all.
"Then why," he shouted to a woman who had held her Titanic passage for a month—"why were they not given this impulse: the people who called?"
"Perhaps they were," said this woman, "and they didn't listen."
When his boat had docked and he had kissed Marie, exceedingly smart and very tender, she cried: "Oh, my darling, thank God you changed your passage. How did you come to do that?"
Asset told her reluctantly, feeling a sense of exposure. At once upon her arrival at home she repeated the story to her family, in his presence. At dinner that night she made him tell it again. The newspapers came and interviewed him on it, and then his firm associates questioned him minutely: "No, but just exactly how did the voice sound?" And at his club they made him tell it again and again, and there they began to joke him about it.
A woman's association asked him to come and speak informally on his wonderful, wonderful metaphysical experience, and he was drawn into an acceptance. Goaded too far by their awe, he informed them that this was the most unusual thing in the world; that he had been obeying this inner voice for years, and that they could all do the same if they were not

Proved on Studebaker's Million Dollar Proving Ground
— 70 actual miles per hour!
— 5 to 40 miles in 18 1/2 seconds!!

THE COMMANDER

Studebaker's Big Six Brougham
NOW \$1585 factory

STUDEBAKER engineers satisfied themselves by Proving Ground tests that The Commander would out-speed, out-climb and out-live any other car—six or eight—selling for less than \$2500.
But the ultimate proof of performance is on the road—with yourself behind the wheel! And on the road, as on the Proving Ground, you will thrill to the flashing pick-up, the silky smoothness of speed and the ease of handling that The Commander places at your command.
Only seven American cars—costing two to five times more—equal The Commander in rated power, which is one reason why the Big Six is today the world's fastest selling high-powered car.
You will marvel at the brilliant performance of The Commander—admire its beauty of custom line and fittings—appreciate the safety of its low-slung, full-vision steel body—and be completely convinced that it is the most remarkable automobile value in history, at its new One-Price price—\$1585.

New Studebaker Prices, Effective February 16th

TEN CAUGHT IN BLUE-LAW NET

South Carolina Raiders Take Golfers at Play

Spectators Screen Others When Officers Appear

Accused Men Indicate They Want Jury Trials

COLUMBIA (S. C.) March 13. (AP)—Officers of Gov. Richards today arrested ten persons, nine of them golf players at Sumter and Camden, for alleged violation of the ancient Sunday "blue laws."

At Sumter eight players were arrested by Sheriff C. M. Hurst and a hearing set for tomorrow. All of them are members of the Sumter Country Club at Sumter and were released on their own recognizance.

At Camden, the officers said, screened the other three and prevented their identification. The presence of some seventy-five spectators, the officers said, screened the other three and prevented their identification.

COURT REFUSES INJUNCTION FILE

SUMTER (S. C.) March 13. (AP)—Eight golfers were arrested here today by Sheriff C. M. Hurst for alleged violation of the Sunday blue laws. A hearing was set for tomorrow.

The men arrested are members of the Sumter Country Club. Representatives of the club, it became known today, attempted to get an injunction last night that would permit them to play, but Judge John S. Wilson to whom they applied, declined to issue the order.

Those arrested are H. D. Outten, newspaper man; M. S. Boykin, bookkeeper; H. K. Skinner, wholesale grocer; W. E. Wright, traveling salesman; H. W. Harvey, automobile dealer; B. Leland Moore, lumberman; J. W. Brunson, bookkeeper; and H. M. Crowson, lumberman.

The hearing was set for tomorrow morning before Magistrate M. J.

FOOD GIVEN TO CHURCH GOERS

Berlin Outcasts Fed as Minister Preaches Sunday Sermon

BERLIN, March 13. (AP)—Berlin has a unique institution in the so-called "schrippenkerke." "Schrippen" is a Berlin term for rolls. In the "Church of the Rolls," which is located on Acker street, in the poorest section of the German metropolis, the outcasts of society are sure to be greeted not only with a sermon, but also with a pot of soup and two rolls.

Every Sunday morning at 8 o'clock the church doors are thrown open, and in walk all those who have had to spend the night on benches or in the railway station because they are homeless and destitute.

Instead of church benches, there are two long rows of tables, at which these unfortunate are fed as the pastor delivers his sermon.

Moore. The defendants indicated they will demand trial by jury.

PLAY UNMOLESTED

AIKEN (S. C.) March 13. (AP)—For the second Sunday since Gov. Richards inaugurated his blue-law program golfers played unmolested today, protected by a restraining order issued the 5th inst. by Judge Rice.

Polo, however, was not played and in the city, shops and amusement centers were closed.

Judge Rice's order is returnable next Saturday. Meanwhile Gov. Richards had left Columbia for a week-end visit, but prior to his departure admonished officials to make the blue laws effective.

BIDS SOUGHT FOR MARINE RAILROAD

WASHINGTON, March 13. (Exclusive)—Bids will be asked shortly for the construction of the marine railroad at the San Diego destroyer base, the Navy Department announced today. The railroad is to be built on a concrete roadbed supported on existing pile foundation.

An alternative design in wood also will be offered for bids. The appropriation making this construction possible was carried in the first deficiency bill.

An Expert

Farmer: Young lady, can you milk a cow?

Muriel: Sure; that is, if you have a can opener.

INVENTION IMPROVES SUN DIAL

New Device Permits Old-Style Timepiece to be Made Accurate

BERKELEY, March 13. (Exclusive)—Despite his numerous duties as regent of the University of California and president of the Alumni Association, Julius Wangerheim of Los Angeles, has found time to do a little inventing.

A new sun dial which tells time as accurately as any which has been perfected by the regent, according to his friends. The dial is remarkable in that no mathematical calculations are required in its use, nor does the reader need to take into consideration the seasons of the year in telling time by the apparatus.

Old-style sun dials were faulty because they could be relied upon only in latitudes for which they were made. Also, they were based upon the "average" twenty-four-hour day and their readings were subject to many errors in calculation. The old-style dials had to be corrected also for the difference brought about by standard and meridian time.

The feature of Wangerheim's invention, making it an improvement over all other types, is a screw attachment permitting adjustment to any latitude, season, or time standard.

POLITE HANDS SOUGHT

WINNEPEG (Man.) March 13. (Exclusive)—Police are endeavoring to capture a gang of courteous bandits, who after holding up and robbing their victims invariably take their names and addresses with a promise to return the loot.

MORE WORK OR BETTER WAGE DEMANDED BY EXECUTIONER

PARIS, March 13. (AP)—Auguste Delbier, France's official executioner, is discontented because too many death penalties are commuted. He wants more heads to call or he wants more pay head.

He and two of his assistants called on Premier Poincare recently with their grievances. Poincare could not promise more heads but he hoped he could find more money for the headmen.

Delbier gets a very small salary but a premium for each execution.

Recently, he complained, there were eight headless months. He said his organization could not live unless there were more, or better paid, deaths.

Delbier is the man, looking much like Mephistopheles, pointed beard and all, who presses the button that releases the spring that lets fall the triangular knife on the necks of the condemned, stretched in the machine invented for the French revolution. The guillotine is set up after midnight by the light of candle-lanterns, just as a hundred years ago. The executions are at faint dawn.

Police Bullets Cut Life Web of 'Spider' Burglar

CHICAGO, March 13. (Exclusive)—Abe Kopman, the "spider" burglar, who had a long record, is dead. His passing was spectacular, in keeping with his career. He was shot twice in midair while leaping twenty feet from a building in which detectives had cornered him.

Detectives Vanderpool and Fleming were passing an apartment building and saw the "spider" crouching on a window ledge on the third floor. He leaped for a rain pipe and started to slide to the ground. Twenty feet from the street, he braced himself and leaped for a coal pile. Both detectives fired as he soared through the air.

He landed and crawled several feet away, crumpling down against a fence. One bullet had pierced his heart and another had gone through both legs. The police blotter holds records of thirty-eight burglaries he had committed.

Missing Youth's Body Sought at Bathing Beach

By a "Times" Staff Correspondent
LONG BEACH, March 13. — Long Beach life guards under command of Capt. Miller were late this afternoon endeavoring to locate the body of Donald Joslin, 22 years of age, thought to have been drowned in the ocean off Fifth Place while swimming.

Joslin and two companions entered the water at that spot and a short time later they missed him and reported his disappearance to the guards. Joslin resided at 790 Oriaba avenue, and was employed in a chain-system store.

HARVARD POST ACCEPTED
SEATTLE, March 13. (AP)—Resignation of Dean Howard T. Lewis of the University of Washington college of business administration to accept a professorship in the Harvard graduate school of business administration was announced here today.

DIVIDENDS WITHOUT INVESTMENT

in Atlanta
Ga.

Mrs. A—, Peachtree Street, Atlanta, Ga., is a generous user of domestic electricity. In her home, besides many lighting outlets, she uses an electric iron, vacuum cleaner, curling iron and hair drier. A recent bill for this service was \$11.77.

**but—
in Los Angeles**

at Bureau domestic rates this same bill under exactly the same circumstances would be \$8.30, a saving of \$3.47. Domestic rates in Atlanta, Georgia are 42% higher than in Los Angeles.

There is a sound reason why Los Angeles domestic light rates are low. Since every citizen consumer is an owner of the Bureau of Power and Light, it is natural that they are entitled, not only to the best service, but to earnings which result from a citizen owned utility. Consequently, rates will always be low.

To get a better idea on the proper use of electrical appliances, visit the Electrical Display—207-209 South Broadway, in the basement. It is one of the finest display rooms of its kind in America and trained attendants will be glad to answer all questions and show the newest appliances. Nothing is for sale. Cooking lessons every Monday and Thursday, afternoons at 2:00 p. m.

NEWS OF SOUTHERN COUNTIES

DONATES LAND FOR SEMINARY

One Hundred Acres Ceded to Catholic Bishop

School to Be Located in Ventura County

Work to Begin Before End of Present Year

VENTURA, March 12.—One hundred acres of valuable land, located on a knoll at Santa Maria, which formerly was the historic rancho Calleguas and Los Pinos, has been donated by Juan E. Camarillo, native of Ventura county, member of the famous Camarillo family and a world traveler, to the Right Rev. Bishop John J. Cantwell of the Los Angeles and San Diego Catholic diocese for construction of a theological seminary.

Conditional with the gift, work shall begin on the new seminary this year and the institution shall commence operation within five years. The seminary is to be known as the San Juan Seminary. Funds available following the donation of the land and endowment of the Junior Seminary in Los Angeles as the result of a campaign last year will be devoted to the initial work on the new theological seminary. Additional funds will, however, be required to complete and equip the new building.

The board of trustees of the new seminary comprises seven priests and seven laymen, together with the Right Rev. Bishop Cantwell as chairman. The members are Right Rev. Fr. John Cawley, John M. McCarthy, T. J. Fitzgerald, Very Rev. Fr. John Brady and George Donahoe, Revs. Michael O'Gorman and Michael Galvin, and the lay members, E. L. Doherty, Joseph Scott, Daniel Murphy, P. H. O'Neill, Juan Camarillo, Francis Montgomery and J. Wiseman MacDonald.

Planning in operation of the new seminary at Santa Maria will complete the system for the education of priests of the diocese, making it possible for young men to continue their studies to ordination without leaving the diocese after finishing the courses in the new Junior Seminary now conducted in Los Angeles.

Juan E. Camarillo, donor of the seminary property, was born in Ventura in 1867, and was educated in the public schools here, thereafter attending St. Vincent's College in Los Angeles. He is not married, and is a frequent traveler during the past twelve years having spent considerable time in Buenos Aires, where the people are mostly Spanish, who adhere to the customs of living similar to those which prevailed among the Spanish people in the early days of California.

Mr. Camarillo is probably as well known in Southern America as he is in California. He is generally referred to in Buenos Aires as "Uncle John." For practically thirty years he has been a globe trotter, visiting to the Holy Land, first in 1906 and several times since, accumulating a wealth of historical data, which have made him an authority on biblical history. His religious nature and inquisitive mind have taken him to Rome, Greece, Egypt, Athens, where he has studied ancient ruins and collected many art treasures.

His numerous collections have been used to decorate the beautiful Catholic Church built by him at Camarillo, and to equip the little museum attached to the building. The institutions benefiting directly through his generosity are the Holy Cross school in Ventura and St. John's Hospital at Oxnard, which was named after the donor. He is a member of the Oxnard Council, Knights of Columbus, the Elks, Native Sons and the Newman Club of Los Angeles. In a statue erected below the Camarillo church lie the bodies of Senor Juan Camarillo and his wife, Senora Matilde, the parents of Juan and Adolfo Camarillo, the church standing as a memorial to the family.

The Rancho Calleguas, located twenty miles east of Ventura on the State highway, is one of the largest landed estates in the county, and is owned by Juan E. and Adolfo Camarillo. It is not only one of the largest, but one of the most continuous ownership and management since the Mexican era in California.

The Rancho Calleguas was one of the old Spanish grants, being granted by the Mexican government to Jose Pedro Ruiz in 1847. The land was sold to Juan Camarillo in several different parcels by Gabriel Ruiz, son of the original grantee. Probably there is no other ranch in the county, at least none of similar size, that has so few changes in its ownership from the early days of California's history down to the present time.

Noteworthy is the fact that the Camarillo family has developed the ranch from a cattle and sheep acreage to one of high productivity, the elder Camarillo having 1500 acres of it in cultivation, principally in corn, barley and other grain crops, at the time of his death in 1886.

LOS ANGELES COMPANY LEASES ROCK PLANT

ORANGE, March 13.—The lease of the Kavanagh & Twombly company on city acre collected on the east of the East Chapman avenue tract, along Santiago Creek, and with the plant railroad crusher, mechanical shovels and other property of the company have been transferred to the Union Rock Company of Los Angeles, for a price in excess of \$100,000, it was learned today.

The Union Rock Company has large holdings in Los Angeles county, but this is the first step toward establishing a branch of the business in Orange county, it was said. With the sale of the holdings, the Kavanagh & Twombly company will discontinue the rock business, according to Guy O. Richards, manager. According to advice from the officials of the company, there will be no change in personnel at the plant at present.

Silver Peak Guest Ranch, Walnut, Cal., is now receiving guests. For reservations phone Pomona Suburban 8. (Advertisement.)

WILD FLOWER FIESTA

Arvin, Kern County, Host to Visitors at First Annual Festival of Blooms

Thousands of visitors from all over the State gathered shortly after noon today to enjoy the great panorama of color which nature had spread for the occasion.

At 3 o'clock a special program was held in which Alfred Harrell and Dr. Willis G. White of Bakersfield were the principal speakers. The program was opened by L. O. Burch of the Bear Mountain Boosters' Club, which organization is cooperating with the Bakersfield Exchange Club, sponsored the festival. Mr. Burch introduced C. A. Barlow, president of the California Irrigation Association, who acted as chairman of the day.

Los Bolin, Los Angeles, radio tenor, accompanied by Mrs. Harold J. Burt, sang several numbers, and Sol Cohen, Hollywood violinist, played several solos. Nearly every civic organization in Kern county was represented on the speakers' platform.

T. J. Brown, superintendent of the Teton rancho, on whose property the festival was held, delivered a message of welcome and Dwight L. Clarke spoke for the Bakersfield Rotary Club.

During the afternoon Don Cardiff had a fleet of airplanes soaring over the scene. Women of the Arvin district had beautifully decorated booths from which they served refreshments and many picnic parties were formed. The festival is to be an annual event in Kern county, it was announced.

Van Nuys Will Vote in April on Park Sites

Parking in operation of the new seminary at Santa Maria will complete the system for the education of priests of the diocese, making it possible for young men to continue their studies to ordination without leaving the diocese after finishing the courses in the new Junior Seminary now conducted in Los Angeles.

Juan E. Camarillo, donor of the seminary property, was born in Ventura in 1867, and was educated in the public schools here, thereafter attending St. Vincent's College in Los Angeles. He is not married, and is a frequent traveler during the past twelve years having spent considerable time in Buenos Aires, where the people are mostly Spanish, who adhere to the customs of living similar to those which prevailed among the Spanish people in the early days of California.

FOR MOONSHINING

ALHAMBRA, March 13.—Robert Schmidt, 60 years of age, will face a jury in Police Court Wednesday on charges of possessing and manufacturing liquor. He is charged with distilling the Los Angeles Electric Corporation by tapping the gas main in operating a still.

In a statutory cry below the Camarillo church lie the bodies of Senor Juan Camarillo and his wife, Senora Matilde, the parents of Juan and Adolfo Camarillo, the church standing as a memorial to the family.

The Rancho Calleguas, located twenty miles east of Ventura on the State highway, is one of the largest landed estates in the county, and is owned by Juan E. and Adolfo Camarillo. Mother to be Law Partner With Her Son

GLENDALE, March 13.—Mrs. Nadia Williams, 600 East Chestnut street, believes that parents should keep pace with their children today, and she has followed her idea out to a logical conclusion by taking a course in the study of law while her son, Sidney Williams, is in law school. Mrs. Williams is a native of Russia and she plans to embark in the practice of her profession here under the name of Williams & Williams.

Mother and son have attended the same classes in the Southwestern University, where Mrs. Williams completed the four-year course of study in law. She will receive her diploma until June, when she will begin her law practice in Glendale, where her son is now practicing.

Her father, a highly educated physician, died by having an accident in Russia, and her mother, who was lost to the knowledge of the family for several years, was found by her son, Sydney, who is now in Boston. Mrs. Williams is planning to spend their vacation this summer.

Indian Fighter is Victim of Auto Accident

ALHAMBRA, March 13.—James H. Quakenbush, 76 years old, a veteran of the Indian wars, was almost instantly killed last night when he was struck by a car while crossing the street. The accident happened on East Main street near the intersection of the Pacific-Southwest street. The car was driven by a man who was not identified.

Bank Merger is Reported in Porterville

PORTERVILLE, March 13.—Negotiations are reported to have been completed for consolidation of the local branch of the Pacific-Southwest Trust and Savings Bank and the Home Bank of Porterville, contingent upon approval of the deal by the Federal reserve bank, which is expected at once.

Consolidation of both institutions is without prejudice to the withdrawal of the Federal reserve bank. It is said the Pacific-Southwest is taking over the Home Bank and will soon move into the new building of that institution.

ADOPT NEW NAMES FOR CITY SCHOOLS

MONROVIA, March 13.—Declaring that the names now in common usage are not appropriate, the Board of Education yesterday announced official new names for two grade schools. The Charlotte-avenue school was changed to Huntington school, as Charlotte avenue, for which the name was named, was renamed Canyon Boulevard many years ago.

The new south side school, which will be completed this summer, will be designated as Santa Fe school.

FORM IOWA SOCIETY SAN BERNARDINO, March 13.—Farmers in the San Bernardino Valley will form a new association at the Odd Fellows Hall in San Bernardino, Wednesday, the 30th inst. The new association, including Otto A. Peters, chairman, J. J. Elmer, W. Ford, C. C. Cooke, Mrs. H. E. Swearingen, has been named to arrange for a meeting and old-fashioned dance on the 30th inst. when a board of directors will be named.

It is proposed to enroll nearly 1000 former residents of Iowa in the San Bernardino association. The Iowa club is at Billingsley's Cigar Store at Third and E streets.

ESCROW IS NAME OF VALLEY PUP

Moniker Given to Him by Boy Who Bought Him on Installation Day

MISSION ACRES, March 13. Bill Pomeroy, 16 years of age, who resides on his parents' small ranch, east of here has a building that answers to the name of "Escrow."

Thereby hangs a tale to the pup's moniker, although the pup itself is stump-tailed up to a point of virtually being tailless.

When Bill's parents moved here from the East a year ago and bought their place, Bill said the word "escrow" uttered a lot of times before he and his parents moved in, and he asked his father to give him the definition of his meaning.

Next, Bill bought the dog for \$2, paying four-bits down as first payment to a neighbor boy. After Bill paid his last 16-penny installment the latter gave possession to the pup.

"I bought him like you and ma bought the ranch," Bill said to his father. "Both he and his doghouse went through escrow."

From that moment the dog came into his moniker, and now answers to the name when called by Bill and the boys in the neighborhood.

ART WORKS PRESENTED TO LIBRARY

Citizens of Ventura Give Valuable Paintings to Public Institution

VENTURA, March 13.—Two oil paintings by James Everett Stuart, direct descendant of Gilbert Stuart, who painted the portrait of George Washington, were presented to the Ventura Public Library today by Dr. S. A. Stuart, uncle of the artist and great grandson of Gilbert Stuart.

One of the pictures, "Birch Trees in March," was presented to the library by Dr. Stuart as a memorial to his wife, Martha Stuart. The other, "Sunset Over the Mountains," was presented by Dr. Stuart and Lena O. Stuart.

James Stuart is known throughout the world for his landscape painting and for several years has had his studio in San Francisco and has been devoting his effort to painting the scenes of the Pacific Northwest.

He is a member of art societies in San Francisco, Philadelphia, New York and other cities in the country. With his wife, Mrs. Lena O. Stuart, he is the author of "Sunset Over the Mountains," a book of paintings, the other pictures being "Birch Trees in March," "Eight Palms" and "Desert Scene," by Katherine B. Teague.

To Feature Dog Show at Kern County Fair

BAKERSFIELD, March 13.—Contracts for a two-day dog show, novelty contest and exhibit, were authorized and plans were definitely to hold two days of super Ford auto races during the 1927 Kern county fair, at a lengthy meeting of the Fifteenth District Agricultural Fair Association in Bakersfield today.

In addition the fair directors outlined the distribution of exhibit space in the permanent fair building to be erected on the fair grounds, to a large number of fair details, including premium book to be awarded to the best exhibitors, granting of prize and the development of a program of horse racing.

R. E. Cady, fair secretary, has signed a contract with John Bradshaw of Los Angeles for the staging of the Kern county fair, which will be held the last two days of the fair. Three hundred of the finest dogs on the Pacific Coast will be entered in the show, Mr. Bradshaw expects, including prize winners of Kern county and the Northern San Joaquin Valley.

SCHOOL ELECTION UNDER NEW CHARTER

INGLEWOOD, March 13.—Inglewood will have a grammar-school election on Friday, March 18th, instead of more than usual interest, due to the fact that the recently adopted new franchise charter provides for five instead of three members on that board. Candidates include three men who have long served faithfully on the board, these being Herman Pulphrey, chairman; W. W. Hodgkins and George C. Malloy. Other candidates are Dr. O. H. Pehrson, Lloyd P. Hamilton, Joseph A. Maguire, Don Beikling and George C. England.

MONROVIA TROOP WINS MONROVIA, March 13.—Continuing their leadership in the Pasadena district, Monrovia Boy Scouts troop 6 was today announced in first place in the district competition in fourth place for Scout efficiency during February. The ten leading troops, ranked in order, were: Pasadena, Pasadena 1, Pasadena 2, Pasadena 3, Pasadena 4, Pasadena 5 and Pasadena 6.

ARCADIA, March 13.—The March Court of Honor for Boy Scout District 4 will be held in the Community Church here on Thursday, the 24th inst., with Arcadia Troop 1 acting as host. Dr. E. W. Hayes of Monrovia, district chairman, will preside. District 4 embraces all Scout troops in Arcadia, Monrovia, Duarte and Sierra Madre.

BOY SCOUTS MEET MONROVIA, March 13.—The March Court of Honor for Boy Scout District 4 will be held in the Community Church here on Thursday, the 24th inst., with Arcadia Troop 1 acting as host. Dr. E. W. Hayes of Monrovia, district chairman, will preside. District 4 embraces all Scout troops in Arcadia, Monrovia, Duarte and Sierra Madre.

Has No Formula to Give Success

PASADENA, March 13.—You can't give a formula for success, Dr. Milliken, eminent scientist, said today, when he was asked to give a formula for success. He was speaking at a meeting of the Pasadena Chamber of Commerce.

Dr. Milliken, who is a member of the Pasadena Chamber of Commerce, said that he had no formula for success, but that he had a plan for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

He said that he had a plan for success, but that he had no formula for success. He said that he had a plan for success, but that he had no formula for success.

CAMP NEWSATLANTA (Ga.) March 13. (P)
Many recruits have taken up the
locky road where they left off from
baseball's golden rule of promise
was waited to them during the late
days of last autumn and today were
winding hopefully back to the minor
leagues for further seasoning before
another chance in the "big time."Last night and today came the an-
nouncement of reduction in several
squad, the first general cutting of
major-league training forces since the
Dixie tour started three weeks or
more ago.The greatest slashes were in the
camps of the St. Louis Cardinals
at Avon Park, Fla., and Washington
Nationals at Tampa, where thirty-
seven men were "fired." Bob
O'Farrell went eight away and
Bucky Harris five.Walter Johnson also left the Sena-
tor camp during the day for Wash-
ington to recuperate from a fractured
leg received in training practice.
Exhibition games were on tap in
all camps in Louisiana and Texas.
The Boston Red Sox played the New
Orleans Pelicans for the second time
in as many days, while Ray Schalk
lined his men up for their first big
game against the St. Louis Cardinals.From now on until the teams be-
gin heading northward late this
month and early next, preliminary
scraps will continue to hold the spot-
light. Five titles are on for tomorrow
in Florida, the Cincinnati Reds meet-
ing the Indianapolis American Asso-
ciation at Orlando; the Cardinals
facing the Philadelphia Athletics at
Lakeland; the Giants and Boston
Braves at Sarasota; and the Kansas
City Athletics and Baltimore Orioles
battling at Auburndale.Hard fighting practice was in
evidence at the camps of the Phila-
delphia Athletics and the Cincinnati
Reds today. The Athletics had a
practice game with the Philadelphia
Phillies, while the Reds had a practice
game with the Cincinnati Reds.A number of the big-league pilots
were returning to their respective
quarters during the day from Sar-
asota, where they attended the testi-
mony of the Federal grand jury today
last night on the occasion of the
"silver anniversary" in baseball.
Connie Mack, in presiding over the
trial, said the case was a "silver
anniversary" in baseball.In a free-hitting game the Whiting-
ton team defeated the Julian Pe-
troleum nine, 20 to 16 yesterday. Dunn
hit two homers for the winners.
While Hall got a triple, double and
two singles.JULIAN PETROLEUM, WHITINGTON

the goodness
of Camel

mellow goodness of Camels. They demand the choicest Turkish and Domestic tobaccos, and find them in Camel gloriously blended. Modern smokers put Camel ahead of all other cigarettes.

You should know the mildness, the mellowness that brings enjoyment to present-day smokers. You'll find it in Camel—every good point that could be looked for in a cigarette.

It's the modern favorite.
"Have a Camel!"

E. J. Bernatche Tobacco
Co., Winston-Salem, N. C.

CHEERFUL CHAFF

BY TIMES READERS

WRITE FOR THE "MOVIE" AND WIN CASH PRIZES
The Los Angeles Times produces a popular fun reel called "Cheerful Chaff," consisting of the twelve best jokes submitted weekly by readers. Twelve \$1 prizes are awarded each week, the names and addresses of winners together with winning jokes appearing on the screen.
Everyone is invited to send jokes. No formal letter is necessary. Just let down your jokes, as many as you wish, along your name and address and mail to "Cheerful Chaff Editor," Los Angeles Times. Jokes for the screen must not exceed thirty words.
Nettle's jokes too long or otherwise not adapted for screen use, are accorded a place of honor on The Times comic page recording a record of acknowledgment.

THEATERS SHOWING "CHEERFUL CHAFF"

APOLLO, Hollywood
CALIFORNIA, Huntington Park
ALVARADO, 710 S. Broadway
HOLLYWOOD, 1024 Sunset Blvd.
OLYMPIA, 2641 E. 8th Street
LINCOLN, Glendale

Mother: Don't forget your manners. We are going to have a Cuban delegate for dinner.
Small son: Do you eat it with a spoon or fork, mommer?
Bob Story, 236 Highland Avenue, San Bernardino, Cal.

Foreigner: Seeing a man in an empty store. What do you sell here?
Man promptly replied: Jackasses.
Foreigner: You have done a wonderful business, only one left.
Charles Williams, 233 South Grand Avenue, San Pedro, Cal.

Mother: Did you finish your homework?
Jackie: I did and she pushed me right in the jam.
Mrs. T. B. Hurley, Corvina, Cal.

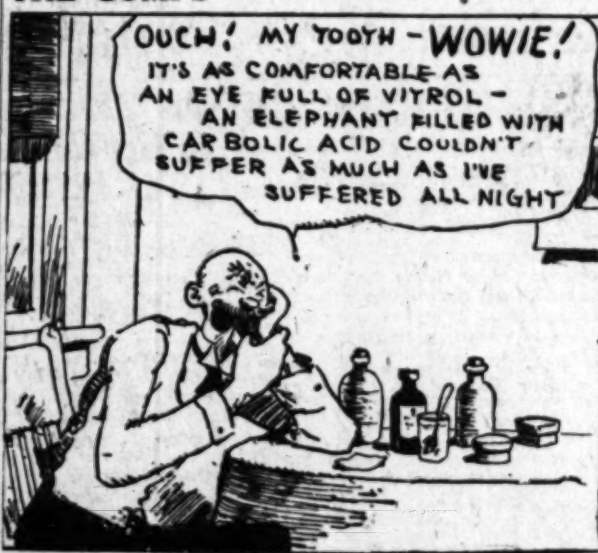

"Are rabbit's feet lucky?"
"Yes, my wife felt one in my pocket and thought it was a mouse."
Grace Smith, 441 East Fifth Avenue, Pomona, Cal.

Auto victim: I don't know his identity but I know he was a barber.
Officer: Why?
Auto victim: Because he went over my face twice.
Kenneth Smith, 201 North Pickering, Whittier, Cal.

Mike: Why is it these people all swim from Catalina to this side?
Pat: That's 'cause it's all down hill coming this way.
Morris Jones, 1042 1/2 Dewey Avenue.

Snapshots of a Boy Finishing His Dessert

THE GUMPS

OUCH! MY TOOTH - WOWIE!
IT'S AS COMFORTABLE AS
AN EYE FULL OF VITROL -
AN ELEPHANT FILLED WITH
CARBOLIC ACID COULDN'T
SUFFER AS MUCH AS I'VE
SUFFERED ALL NIGHT

He Suffers In Silence

BOY!! ON BOY!! THIS ISN'T
A HOLLOW TOOTH - IT'S JUST THE
GRAND CANYON OVERFLOWING WITH
BOILING LAVA - MAYBE IF I COULD PICK
UP A RED HOT STOVE LID - IT MIGHT
TAKE MY MIND OFF OF MY SUFFERING
FOR A FEW SECONDS

By Sidney Smith

BUT I WON'T COMPLAIN -
YOU'LL NEVER HEAR A WHINING
OUT OF ME - I'LL DIE LIKE A
MAN - OUCH!!
I CAN'T BEAR IT

3% OF ITEM
40 LESS CREDIT
OF 25%
ITEM 30.

THE LARGEST AMOUNT
WHICH IS LESS THAN THE
INCOME - THE SURTAX UPON
THE EXCESS OVER THAT
AMOUNT.

SCUSE ME, WALT.
I'LL COME IN
WEDNESDAY.

ANYWAY I GET ONE
LAUGH OUT OF IT! I WAS
A BACHELOR LAST YEAR
AND MY EXEMPTION WAS
\$1500. I'M MARRIED NOW
AND IT HOPS TO \$3500.

AREN'T YOU
COMING TO
BED, WALT?
WHAT ON
EARTH ARE
YOU DOING
SO LATE?

I'M PLANNING A
LITTLE GAME FOR
UNCLE SAM. I
HE'S GOING TO
BUT I'M THINKING
KEEP HIM DOWN
A REASONABLE
SCORE.

Beware the Ides of March

ELLA CINDERS

WE'RE FORCED OUT OF THE PICTURE
AT THIS CRUCIAL TIME. THEY HAD TO
DUCK IN DISGUISE. AGAIN THEY'RE
ON THEIR WAY TO NEW YORK.

I'M OUT FOR
FOOD - AND FOR
I'M NOT EASY,
WE BOTH
WILL.

Jimmie Takes Pains for His Excuses

WINNIE WINKLE, THE BREADWINNER

FOR THE PAST WEEK, MIKE HAS BEEN TRYING
TO TELL WINNIE SOMETHING AND WINNIE, WHO
SUSPECTS THAT "SOMETHING" TO BE A PROPOSAL
HAS SUCCEEDED IN STALLING HIM OFF! BUT IT
TAKES SOME FAST AND FANCY THINKING TO HEAD
OFF A PERSISTENT PERTINACIOUS PROPOSER.

I'M GIVING A LITTLE PARTY AT
MY HOUSE TONIGHT! A BUNCH
OF INTERESTING BOYS WILL BE
THERE! WILL YOU GIRLS
COME??

THANKS!
I'LL BE
THERE!
AND
ME!

OH, BOYS!

Mike Is Dance Mad

HELLO, WINNIE? SAY
LISSEN - I BEEN TRYIN'
TO ASK YA SOMETHIN'
EVERY EVENIN' ANY YA
KEEP STALLIN' ME OFF!
I'VE COMIN' OVER TO SEE
YA TONIGHT AN'

CERTAINLY MIKE!
BY ALL MEANS
COME OVER TONIGHT!
I'LL BE
DELIGHTED TO
HAVE YOU!!

DON'T
DANCE,
MR.
MULLIGAN
TIE-HEE!

NO!

YOUR FRIEND, MR.
MULLIGAN SEEMS
TO BE SORE ABOUT
SOMETHING, DOESN'T
HE, WINNIE?

POOR MIKE!
I THINK HE'S
RUCK ABOUT
SOMETHING.

MOON MULLINS

BEFORE
WE
EVEN
ATTEMPT
TO GET
THAT BAG,
BROOKLYN
THAT MULLINS
MUST BE
OUT OF
THE WALL.

HE IS ON HIS WAY NOW -
MA - I GAVE HIM A
PHONEY CHECK. THE
GUY BEATS TO THE
OLD LADY CASHED IT
AND HE IS TO MEET
ME IN NEW ORLEANS
THIS MORNING! MAY
THE BOSS, HE
JUMPED AT IT LIKE
A PEN AT A RAT.
MA RA HA -
WELL, THE REST
WILL BE A
CINCH.

JUST A LITTLE
SCENE IN A DARK
BACK ROOM
WHILE OUR
LAWYERS
HEROES
DESTINY IS
SLIGHTLY
ALTERED BY
MISADVENTURE
OR LIES WITH HIS
OURFACE.

I CAN'T
HELP IT IF THERE
IS A MISTAKE -
I BELONG TO THE
TICKET TO
NEW ORLEANS AND
NEW ORLEANS IS
WHERE I'M
GOIN'.

I AM SORRY, BUT
YOUR TICKET
GARY, INDIANA -
I WILL HAVE TO
ASK YOU TO PAY
YOUR FARE OR
GET OFF.

WELL, GET THIS
DOPPEY - ME AN' YOU
BELONG TO THE
SAME LODGE!
AND I'LL GET
OFF! THESE CUSHIONS
YOU'LL HAPTA
PUT ME OFF!

HAROLD TEEN

IF YOU HAVEN'T GUADED
ENOUGH TO TELL HER AND
HER BROTHER TO THEIR
FACES - WHY GO ON AND
SURFER!

FOR ONCE IN YOUR LIFE YOU'RE RIGHT,
POP! WHY SHOULD I GO WITH GOGGLES
WHEN I DON'T LOVE HER - JUST
BECAUSE HER BIG BROTHER BULL-
DOES ME - NOZZLE! NO BOLD
IS GONNA HAVE ME
LIVE A LIE!

ATTA BABY!

HELLO, KID! - ON
YOUR WAY DOWN TO
SEE GOGGLES?
HOP ON - I'LL GIVE
YAN A LIFT!

OH! AXEL?
HUM? - YEH!
YEH!

NOW THAT YOU
HAVE GIVE ME
A BIG KISS, YES?
WHAT WAS YOU
GOING TO TELL
ME - THAT WAS
SO IMPORTANT
BIG BOY!

Back in the Fold!

OH! AXEL?
HUM? - YEH!
YEH!

NOW THAT YOU
HAVE GIVE ME
A BIG KISS, YES?
WHAT WAS YOU
GOING TO TELL
ME - THAT WAS
SO IMPORTANT
BIG BOY!

ARTESIA CRUDE SLASHED AGAIN

Price of 20 Cents a Barrel at Well Announced

Price Now \$1 Following Three Previous Drops

Operators Turning Attention to Wildcatting

ARTESIA (N. M.) March 13. (Reuter) - Crude oil was given another cut here yesterday, the price dropping 20 cents, bringing the price to \$1.00 a barrel. This is the fourth price reduction in the last five months. A barrel of 30 cents being made on March 17, another of 20 cents on March 20, the third on the 7th and fourth yesterday.

As a result, operators are turning attention to wildcatting and many blocks of acreage are being checked by geologists. The majority of blocks are west of the Rio Grande, north of the Malpais and Artesia fields.

Another of the major companies acquiring acreage west of the river is the Kinross Refining Company. It has closed a deal for the holdings of Art and associates, consisting of a pumpjack and 1200 acres six miles north of here. The production of this well was picked up at 1920.

Kinross has enlarged the block being drilled with an additional 1000 acres and has let a contract for a well to be drilled with rotary tools. The well is to be drilled on the Terry farm, located one-half of a mile west of the Kinross well and about one-quarter of a mile northwest of the old Brown well that attracted attention of oil men to the Pecos valley over twenty years ago. This well, drilled for artesian water, came to the surface in 1900 and about 1910. It never proved to be a commercial producer, due to a heavy flow of water, although a large amount of money was spent in attempting to shut it off.

KERN LEASE FILED
Petroleum Gets Forty Acres on West Front

BAKERSFIELD, March 13. (Reuter) - An agreement naming the General Petroleum Corporation as lessee for forty acres on the Kern River front area, which was authorized December 13 by the Kern County Superior Court, has been filed today.

The property is owned by the late K. Young estate, and the lease was drawn by Denver S. Smith and M. K. Reed, co-executors of the estate. The lease covers the southeast quarter of the southwest quarter of Sec. 13, 28-27. Royalty will be one-sixth.

RUMORS OF OIL STRIKE PREMATURE

Gale Wildcat Well Near Bakersfield Expected to Reach Sand at 4500 Feet

BAKERSFIELD, March 13. (Exclusive)—Rumors that the Gale wildcat well in the Union-avenue tract just south of here, created considerable excitement Saturday, but were allayed when officials of the company announced that no results had shown to date.

The well is drilling ahead at 3543 feet, with little or no definite indications of oil. It is believed that if it is present in the Union-avenue district, it will be encountered within the next 1000 feet, and it is at a depth of 4500 feet that the anticipated finding of oil, officials of the company say.

The test well is on Sec. 6, 30-28, a half-section west of the Los Angeles Bakersfield highway and an equal distance south of Brundage Lane—the Southern Bakersfield city limits. The wildcat is being drilled by the Telford Drilling Company.

George P. Getty, Inc., a company which harvests confined its Kern activities to the west front of the Kern River fields, where it has more than twenty-five producing wells, has extended its holdings to the Union-avenue district.

From A. and B. S. Sorenson, trustees for Hazel P. Whitchel, Getty has leased lots 22 and 27 in Sec. 1, 30-27, near the Gale well. Drilling is scheduled to begin on the twenty-acre tract within three years, on a one-eighth royalty basis.

City Manager James Ogden reports that the leasing of city property in the Union-avenue area has not been completed. Several weeks ago, the city manager announced that an oil company was seeking a lease on the city sewer farm, comprising more than 400 acres.

BAKERSFIELD, March 13. (Exclusive)—Deeds to the entire Kern county holdings of the American Oilfield Company, valued in excess of \$1,000,000, have been filed in the office of Recorder Rhomate of Kern county during the last few days. The deeds are made in favor of the California Petroleum Corporation, of which it has been a subsidiary.

The property, including hundreds of acres in the Midway-Sunset fields on the West Side, near the oil community of Bakersfield, and the Kern River fields, is almost fully developed, and has scores of producing wells. The transfer, which was authorized at a stockholders' meeting January 1, of this year, is declared to be one of the largest oil deals consummated here in many months.

Included in the properties deeded by the American to California Petroleum, are two leases with bunkhouses, private dwellings, barns, garages and all the equipment necessary for development and production headquarters. The larger of the two leases is on the west half of the northeast quarter of Sec. 36, 31-23, just west of Bakersfield.

The other section upon which the American constructed its camp is Sec. 36, 32-34, midway between Taft and Maricopa, on a north and south line. The latter holding has not been developed for several years.

Company Sells Properties in Richfield Area

The Chickman Oil Company, which began developing property in the Richfield district two years ago, has just sold its Bradford lease in that field, consisting of thirty-seven acres, and the Hartwell lease of seven acres, to the California Petroleum Corporation.

There are six producers and one well drilling on the Bradford tract, and one producer and one well drilling on the Hartwell lease. Both pieces of property are located at the southwest edge of the Richfield district. The financial consideration involved in the deal has not been made known.

The Chickman Oil Company has its headquarters at Fullerton, with H. W. Elliott of Los Angeles as president, and J. A. Bradford of Fullerton, secretary-treasurer. The board of directors includes in addition to these two, Al Bagnall of Los Angeles, H. G. Henderson of Fullerton and Dean Lovett of Anaheim.

Wildcat Well Signs Point to Early Results

DEL MAR, March 13. (Exclusive)—San Diego county hopes that the coming week will see her first oil production developed in this neighborhood. The Randall No. 1 wildcat well of the Southern Oil and Gas Company, which oil men have been watching with great interest, is setting a pace for the gas blowout at Capistrano proves that an oil-bearing structure extends south of Santa Ana and virtually proves that oil exists in Northern San Diego county.

Gas and signs of oil have been frequent on the Randall No. 1 ever since it reached a depth of 1000 feet. The drillers assert that they are confident of striking oil in this territory and they do not intend to stop drilling until they find it. They plan to drill other wildcats in the same neighborhood.

BLACK GOLD ENRICHES CITY

Sum of \$10,000,000 to be Spent in Long Beach in Next Sixty Days on New Field

Some idea of what an oil boom means to a community may be gathered from the fact that at least \$7,000,000 will be spent for wages, oil well supplies and other equipment, in the city of Long Beach, during the next sixty days, to say nothing of the money which will be paid to property owners for oil produced within that time and during the years to follow, in the development of the Naples area of the Seal Beach field.

Operating companies conservatively estimated that at least 100 wells will be drilled in the Naples district during the next two months, and that the probable cost of each well will be in the neighborhood of \$70,000. This means that oil-well supply companies, drillers and other mechanics, and in around Long Beach will pocket at least \$7,000,000 in the next two months. As a matter of fact, pipe lines, absorption plants, storage tanks, cement work, grading, trucking and other field activities probably will run the expenditure of the next sixty days at Naples up to \$10,000,000.

DRILLING ACTIVE
Twenty-three operators are already drilling seventy-seven wells in the Naples field, which is within the city of Long Beach. The Naples field, against drilling in that district have been off only five days. Of the seventy-seven wells, sixty-seven were actually in some stage of operation Saturday, ranging from grading for a derrick foundation to actual drilling, while ten others were located and ready to build derricks.

Five wells in the district were actually drilling. One was in the area subject to the former drilling restriction, the other four being just outside the line. Paul Getty has four wells rotating, ranging in depth from forty feet to half mile, while E. J. Milly spudded his first well Thursday.

GETTY, INC., LEADS
George P. Getty, Inc., leads the field in number of wells under way, having a total of eleven projects, nine of which are building derricks, and two locations. The California Petroleum Corporation has nine wells started, eight of which are building rigs, while one is a location.

The General Petroleum Corporation has eight wells under way, all of which are in some stage of operation. In addition to General Petroleum's wells the Bankline Oil Company, which is a subsidiary of General Petroleum, has one well digging cellar.

Paul P. Getty, the Petroleum Securities Company, and the Superior Oil Company each has seven wells started. Four of Paul Getty's wells are drilling, and one is a location. The other two are building derricks. Petroleum Securities is grading five locations, and building two derricks. The Superior has foundations in for three derricks, and is working on cellars for two others, the seventh being a location.

JULIAN ACTIVE
The Julian Petroleum Corporation has five wells started, two grading locations for derricks, the other three being merely locations. The Universal Consolidated Oil Company, and the White Eagle Oil Company are drilling or preparing to drill four wells each. Universal Consolidated is building four derricks, and the White Eagle is building three, the fourth being a location.

The Richfield Oil Company is building three derricks, and the Milly is building one rig, with his first well already drilling. The Craburn Oil Company has two rigs building.

Operators with one well each are Dill & Comstock, Taft and Associates, Italy-American Oil Company, Coy & Deeda, Rainbow Petroleum Company, Fred W. Roberts, J. T. Robertson & Co., South Beach Oil Company and H. L. Wabston.

Air Compressor and Hoist for Kerrick Shaft

The Kerrick shaft of the Comanche M. & R. Company on Bluff Springs Hill in Mono county is being equipped with hoisting works, air compressor and drills, according to a report from Charles A. Palmer of Los Angeles, president and general manager. He said that as soon as the hoist is in commission a drift from the 800-foot level will be started on two feet of high-grade silver-lead and gold-bearing ore, and continued on to a connection with the workings of the Diana mine 1700 feet distant on the same vein.

On the 600-foot level the two mines have been connected by drift, and as the ore is known to be continuous between the two points, the shaft will give 200 feet of virgin ground from the 800-foot level up. The shaft is also to be deepened to the level of the big drainage and transportation tunnel, where connection will be made upon the completion of the tunnel to point of intersection, opening up large areas of commercial ore, and also providing improved ventilation as well as drainage.

This cross-cut tunnel is now in a distance of 2960 feet, and progress in its advancement is being made at the rate of eight feet daily. At a distance of 2940 feet in from its portal the great Cornucopia was encountered at a vertical depth of 2000 feet, on its dip from the surface, and has been found to be twenty feet in width between walls.

ACID TRAFFIC HEAVY
Calumet and Arizona Ships 6800 Tons a Month of Sulphuric

DOUGLAS (Ariz.) March 13. (Exclusive)—About 6800 tons a month of sulphuric acid are being shipped from the Calumet and Arizona plant here, the product being manufactured from fumes of the smelter roasters. The largest customer is the Inspiration mine at Miami, though much acid still is going to the Ajo leaching plant of the New Cornelia Company, which was the original customer.

Another large patron is the Apache Powder Company, near Benson. It is expected to develop a large market in the farming industry, where acid is valuable as fertilizer and for fighting insects and keeping down fungus growth.

OIL SHIPMENTS SHOW INCREASE

Gain of 200,000 Barrels in Week's Loadings

Bulk of Cargoes Taken for Pacific Trade

Foreign Demand on Atlantic Doubles Domestic Needs

Exports of petroleum products from Los Angeles Harbor last week exceeded by at least two tanker loads those of the previous week, the comparison being 2,087,690 against 1,886,978 barrels. Last week thirty-four tanker loads moved.

The Pacific domestic trade took 848,070 barrels, consisting of 487,400 barrels of crude, 207,055 barrels of fuel and 148,615 barrels of gas. The Pacific foreign trade called for 46,277 barrels of crude and 533,492 barrels of fuel, making a total of 579,769 barrels.

Exports of petroleum products from Los Angeles Harbor last week exceeded by at least two tanker loads those of the previous week, the comparison being 2,087,690 against 1,886,978 barrels. Last week thirty-four tanker loads moved.

TEAGLE GLOOMY ON OIL OUTLOOK

Magnate Expects Oversupply to Endure Long

Reduction in Stock Needed to Improve Price

Believes Daily Output Will Prevail for Months

TULSA (Okla.) March 13. (Exclusive)—Continuance for many months of the prevailing overproduction of oil was forecast yesterday by Walter C. Teagle, president of the Standard Oil Company of New Jersey.

Until the reserve stocks of petroleum now above ground are permitted to function as a real reserve to be drawn on in place of new production, a higher oil price is unlikely, he said. Mr. Teagle is on an inspection trip of the Midcontinent fields.

"The potentialities already indicated by such overproduction of oil, as far as the Seminole, West Texas, Panhandle and California fields, are so great that an upward trend in crude oil production is bound to occur for several months; consequently affecting crude oil prices adversely," Teagle remarked.

"Most people are under the impression that the trend of the country's production will necessarily away from the Seminole, West Texas, Panhandle and California fields, are so great that an upward trend in crude oil production is bound to occur for several months; consequently affecting crude oil prices adversely," Teagle remarked.

"Most people are under the impression that the trend of the country's production will necessarily away from the Seminole, West Texas, Panhandle and California fields, are so great that an upward trend in crude oil production is bound to occur for several months; consequently affecting crude oil prices adversely," Teagle remarked.

ORD MINES PROGRESS REPORTED

Hundred-Ton Ore Bin and Two-Way Gravity Tram Being Built

The Ord Mountain Mines, Inc., of Los Angeles, with extensive holdings in the Ord Mountain district, is constructing a 100-ton daily capacity ore bin, according to J. L. Carder, manager and constructing engineer, who reports that satisfactory progress is being made in mine development and equipment.

In addition to the ore bin a 1000-foot surface gravity tram, two-way ground tram in course of installation. Its completion is expected within ten days or two weeks, immediately after which weekly shipments of a carload of 800 ore, from development work only, will be made to the open market or direct to some smelting plant. The mine product will be derived from the Bio Vista crosscut tunnel, now in course of development.

Drifts on the ore body, both ways from the cross-cut, are being driven, the best showing being made in the north face, where the ore deposit is from six to twelve feet in width. This mass of ore from two to five feet in size shipping material, while the balance of the ledge is of good milling grade, and will be ultimately handled by a treatment plant constructed on the ground. The tram will deliver the ore to the mill site and loading station in the valley below the mine.

From the tunnel level, where the ore is being blocked out, there are 800 feet of backs to the surface. The workings are in the primary zone, the ore being a sulphide carrying chalcopryite, with a native copper content of 10 per cent. The ore is of deposit, and increased metallic value, is anticipated as greater depth is attained.

Mean Slim
"Don't any gentlemen prefer brunettes to blondes?"
"Yes," replied the cynic, "those who have married blondes."—(Cincinnati Enquirer.)

From Near-by Petroleum Fields and Mining Camps

RARE MINERALS, METALLURGY, CHEMISTRY

Granular Matter
TULUNGA, Feb. 22. Question:—The enclosed sample is from Tulunga county, California. I would thank you to classify it and give me an analysis thereon.
Answer: It carries more or less microscopic yellow mica known as cat gold. Biotite (black mica of the mining boys in the hills) is present with a little magnetite, some hornblende and feldspar. Free gold absent. The sample is probably decomposed granodiorite.
Not Paraffine Shale
SIERRA MADRE, Feb. 22.—Q: Will you please analyze this shale from Riverside county for traces of paraffine.
R. V. C. A.: It degrades before the blowpipe and swells a hygroscopic mass of potash. It is in part impure dolomite; it yields no paraffine with solvents; traces of soda and lime carbonate are present with some potash; clay and traces of hydrous magnesium silicate.

NEW 'CRACKING' PLAN PATENTED

Process May Revolutionize Refining Methods
Patents have just been granted on a new "cracking" process developed in Los Angeles, which, it is said, may revolutionize refining methods. The process is owned by the Howard-Loomis Refining Corporation of this city.
A new type of equipment is used which provides for a continuous run of crude oil through the still instead of in batches as at present. The process is almost entirely automatic, and the heat of the still is maintained by means of a gas or oil burner. The residue that collects in the bottom of the still.
A 700-barrel capacity still which ordinarily takes about two hours to run can now be run in twenty-four hours, reducing the cost of refining more than 50 per cent, according to the company.
The danger of explosion, which is present under existing refinery methods, is said to be entirely eliminated with the new method.
The process is said to convert practically all kerosene into gasoline, a factor that is of considerable importance, owing to the increased production and the diminishing demand for kerosene.
The lighter end of kerosene now blended with gasoline, is also converted into pure gasoline, so that the kerosene fraction in refining is entirely eliminated in the new process.

VERDE CENTRAL GAINING GROUND

Reports from Mine Conflict But Progress is Known
It is known definitely that immense reserves have been blocked out down to the 1000-foot level, all in all, in the Verde Central, the ore and formation strikingly similar to what is known in the near-by United Verde.
Sampling is said to have shown a general average of from 5 to 10 per cent copper, with some much richer stuff. Several large veins have been followed on a number of levels, generally with encouraging results.
The strike is strongly on the lowest level, considered a good sign in this district, especially as it has been from the drainage of the surface limestone. No ore has been shipped or worked, with holding of only that which has been broken down in development.
The company has been fortunate in having ample capital for most of its issues. The Chamber of Commerce and the Chamber of Mines of Arizona have been following the Verde Central and Arizona taking up all not absorbed by the fringe of outside holders.

STOPE OF MINE IN PAYING ORE

Katherine Gold Gets Average Value of \$8 to Ton
Compressor, Hoist Installed at Treasure Vault Camp
Adams Mining Working Claims Near Kingman
"ROMAN (Ariz.) March 13. (Exclusive)—On the 200-foot level of Katherine Gold, west of the shaft, stope for 200 feet has been in ore fourteen feet wide and averaging \$8 in value. The main shaft, now about 250 feet deep, is in good ore. Much water is being encountered and it is expected to continue to 300 feet, where a station will be cut for what are to be the main workings of the property. The mill is handling around 225 tons a day, somewhat kept down by necessity for hoisting the shaft muck.
Treasure Vault Extension has installed a new hoist and compressor and a lighting plant for a new camp that is being erected. Rapid work on shaft sinking is expected as soon as machine drills are in commission. O. C. Edwards of Los Angeles is at the head of the Adams Gold Mining Company, which is developing the Adams group near the Katherine Development at 100 feet is reported to have cut good ore. Assessment of 1 cent a share has been made on the stockholders. The same interests have incorporated the Katherine Midway Mining Company, which has 100 claims in the same locality and which is to absorb the Adams organization, share for share, after payment of the assessment.
Five hundred tons of alluvial ore are being shipped to smelter from the old dumps of the C.O.D. mine. While especially valuable as flux, the shipments are reported to carry material quantities of gold, silver, lead and zinc.
MATRIMONIAL BAIT IN TOBACCO
"If you like this fine tobacco better than the coarse quality you usually find in the market, remember it is thanks to Marie, widow of Jacques Bonhomme, packer in the Moritz tobacco factory, who wishes to re-marry." This message, written on a scrap of tissue-paper, was discovered by a Brest customs officers in a cheap package of tobacco, superior in quality to that which he thought he had bought.

JULIAN CONSOLIDATION

The consolidation or merger of the Julian Petroleum Corporation authorized by the stockholders of the Julian Petroleum Corporation on February 26, 1927, is, according to authentic information which we have just received, rapidly approaching completion.

It is freely predicted along Spring Street that final announcement in respect to the merger will be forthcoming during the present week.

Since the stockholders meeting we have based our recommendation to purchase Julian Petroleum securities purely on the intrinsic value as shown by the financial reports submitted at the stockholders meeting. Those of our clients who have accumulated stock at from \$7 to \$8 per share and availed themselves of early profits during the past week netted more than 150% profit.

Even with this substantial profit made, we again invite your attention to the fact that this stock has seen a level as high as \$35 a share in the past eighteen months and under the proposed merger of the Julian Petroleum Corporation into the California-Eastern Oil Company it should not the stockholders of the Julian Petroleum Corporation something in excess of 3 1/2 shares of California-Eastern stock for each share of Julian Preferred. California-Eastern stock is selling on the San Francisco Stock and Bond Exchange around \$8.00 per share.

You will recall that with the consolidation of the Julian Petroleum Corporation into the Julian Petroleum Corporation, even after the contract had been entered into between the two companies, Julian stock remained around \$1.20 to \$1.50 a share or about 35 points below the proposed price until the date on which final action was taken. Immediately following the acceptance of the offer made by the Julian Petroleum Corporation, Julian stock advanced some thirty points. The day following was "too late" for those to profit in the upward swing to the level at which the stock was being purchased by the Julian Petroleum Corporation in contemplation of the proposed consolidation or merger of all the companies into the California-Eastern Oil Company—a deal which has required many months of effort and many millions of dollars in the consummation thereof.

So in the case of Julian Petroleum preferred, the day following the final action by the California-Eastern Oil Company will be "too late" to profit in what should be the greatest advance in price that Julian Petroleum preferred has ever experienced.

We suggest that in the event you have not received our digest of the stockholders meeting containing the terms of the proposed merger of the Julian Petroleum Corporation and its subsidiary companies into the California-Eastern Oil Company, either call at our office, telephone TRinity 2401, or write for a copy. You will then have first-hand information and will also know what the "WAGY" will be when and as final action is taken on the consolidation.

We will carry Julian Petroleum preferred with a margin of 50%.

Please TRinity 2401 for latest quotations on Julian

TWO SANDS INDICATED IN SECTION

Check of Formations in New Mexico Holes Seen Favorable to Theory
ALBUQUERQUE (N. M.) March 13. (Exclusive)—Commercial production from two distinct sands looms as a possibility in Southeastern Valencia county, since the bringing in of the Midwest Oil Company's well in McKinley and a check of its formations with certain of the Valencia county operations.
One hole is expected to be found at about 1800 feet, the depth where the Midwest got its well. The Midwest producer is estimated to be good for 500 barrels daily, although it will be drilled on down to test the bottom hole zone. The other production expected in Southeastern Valencia county is thought to be in the neighborhood of 2000 feet.
Three Valencia county wells appear to be on the trend for the 1800-foot sand, and are the most easterly wells of the county and include the Perrin-Schwartz on Sec. 25, T-2, the Valencia Petroleum Company on Sec. 10 on Sec. 7, 6-2, and the Gilmore & Sheldon well on the Tume land grant Sec. 20, 6-2.
Of these wells that of the Valencia Petroleum Company is deepest, it being about 1800 feet, and the installation of a gas engine which will be used in making a test when the 1800-foot level is reached. The Gilmore & Sheldon well is preparing to set ten-inch casing at 735 feet. Perrin-Schwartz is 500 feet down and drilling. In each of these wells formations found to date have checked up rather closely with what is known of the Midwest formations.

OPERATIONS AT WRIGLEY MINES TOLD

Black Jack and Renton Values Holding Up Well in Deeper Workings
AVALON (Catalina Island) March 13. (Exclusive)—The Renton mine near Seal Rocks is down to its fifth level and preparations are under way to cross-cut the twenty-eight-foot vein of mineralization encountered in the four upper levels and which slants off toward Silver Canyon.
The Wrighley Tunnel is drilled in to 1000 feet where the new cross-cut is to be made of the original vein. Mineralization of the vein extends for forty feet with twenty-eight feet of high-grade silver and lead bearing ore continuing consistently through the entire length of the tunnel with tendency to widen at various points of contact.
At Mt. Black Jack, the largest mine in operation on Catalina Island, the double compartment shaft is down 210 feet with the ore holding consistent lead and zinc values with good percentages of silver.
The flotation mill at White Landing has been increased from a 100-ton per day capacity to 150 tons and is being operated in three eight-hour shifts.
Shipments from the Catalina flotation plant last week comprised 300 tons of zinc concentrates to Belgium and fifty tons of lead concentrates to the American Smelting Company at Selby, Cal.

SMALL MINE BEST ASSET FOR TUCSON

City Receives \$500,000 Annually in Business of Minor Properties
TUCSON (Ariz.) March 13. (Exclusive)—The Tucson Chamber of Mines estimates that of the county's metal output of \$12,000,000 a year, 50 per cent comes from a single mine—the New Cornelia, at Ajo. Yet this city is said to be about \$500,000 a year in business as a result of small mines in its locality, and work is being prosecuted continually toward better development of local mines of known worth.
The district is an old one, its ore carrying mainly silver, gold and lead. Some mining was done back in the Spanish days. Tucson is the shipping point. In the same district, the Mohawk mine is to be worked by a Colorado company, represented by George W. Logan.

SUNNYSIDE PROSPECTS IMPROVING

Face of East Drift Off Double Shaft Reported in Solid Quarts
The face of the east drift from the 335-foot level of the double-compartment shaft of the Sunnyside Copiedated Mining Company, Outman, Ariz., is in a solid body of quartz, according to J. L. Melver, in direct charge of mine development. This is at a point 941 feet from the shaft, and the present workings are in direct contact with the extension of the ledge from the east drift, at a point 300 feet from present workings. The cross-cut will be continued to a point under some large croppings identical in character with the soft, leached croppings under which some of the large ore bodies of the district were developed and profitably mined in the past.

RAY HERCULES SOLD

Nevada Consolidated Copper is Buyer of Property
FLORENCE (Ariz.) March 13. (Exclusive)—The Ray Hercules property at Ray has passed to the ownership of the Nevada Consolidated Copper Company, according to deeds filed here.
Ray Hercules has a well-developed and well-equipped group of claims at Ray, almost surrounded by the claims of the purchaser. Included is a 500-ton mill near Kelvin, with connecting sections of railroad. Operations were short, as the ore was found very low grade.

To Julian Petroleum Corporation Stockholders

The California-Eastern Oil Company has notified me of its desire to avail itself of the full thirty days within which to act upon the proposed consolidation and merger of the Julian Petroleum Corporation into the California-Eastern Oil Company.

The directors of the Julian Petroleum Corporation have satisfied themselves that progress was being made by the California-Eastern Oil Company in completing its plan for the proposed merger or consolidation within the maximum period of thirty days allowed under the resolution of the stockholders. Accordingly, the California-Eastern Oil Company is entitled to and was granted the maximum of thirty days within which to complete its plans.

Announcement of the California-Eastern Oil Company position respecting the merger or consolidation was made through the Monday editions of the San Francisco papers by C. W. Durbrow, director and counsel for the California-Eastern Oil Company.

It is my personal opinion that the full thirty days will not be required by the California-Eastern Oil Company, and that the final announcement will be forthcoming at a much earlier date. Until that announcement is made, in my opinion, it is to your interest to retain your present stock, both preferred and common.

Respectfully submitted,

TO SPREAD KNOWLEDGE

"Mass broadcast," said the speaker, "has thrown the door wide open to those who would raise the level of national culture by greater educational opportunities and to the millions who yearn for some of the advantages of higher education. The medium is ideal education, for one reason: it is to reach the adults in the home rather than to bring him to the classroom. From this standpoint,

EDUCATION

EDUCATION FOR ITALIAN BOYS WILL BE A KEYNOTE OF MODERN LIFE THAT IS BEING TAUGHT IN THE UNITED STATES.

AN ENVIED SPOT
(There is but one automobile in the ancient city of Damascus, it says a late news item.)

Damascus is the place to be; No auto horns; To toot, by gee! Just one machine! Is all there is; No racing cars; To scoot and whizz!

Think of the joy Of going out And never hear A warning shout! To cross the street With mind at rest, And never get Knocked galley west!

There, everything Is all serene, Since there is only One machine! Joy riders do Not whoop at night, And end their runs In drunken fight!

Damascus dogs Are not run down; The cats are safe About the town; With but one auto Going through, Bad accidents Are mighty few.

How nice it must Be over there, Where aged folks Don't get a scare! Where punctured tires Are seldom seen, Since there is only One machine!

E. A. BRININGTOOL

INVISIBLE LIGHT

Owls and bats fly at night and cats of all sizes and varieties peer through the darkness seeking prey. The owl discovers its prey from some height and swoops down upon it with the accuracy of a hawk lacking at noonday. The bat, with bewildering speed and rather strikes obstacles in its way and can be hit with a weapon in the hands of a man. The bat is not a double sight, for they hunt with equal stealth at midnight or noon.

The owl sees poorly in sunlight, bats seem blinded by it. Cats narrow their eyes and reduce the pupils to the tiniest slit in bright light. The bat is extremely sensitive to touch and it has been supposed that its swift darting about in the dark depends in some measure upon nerve guides akin to touch rather than wholly upon vision, as well as upon sensory apparatus and marvellously keen external ears. Scientists have declared that crepuscular and nocturnal birds and mammals see a less light than humans, but not in the dark, and that a state of darkness that is almost absolute to the eyes of man may be daytime to the eyes of owls and bats.

New theories of night vision may arise out of the recent discoveries of J. L. Baird, noted British genius whose successes include a television apparatus and invisible infrared light. Most types of powerful searchlights contain infrared rays in high degree and these rays, though invisible to the human eye, are employed by the human eye in the phenomenon of vision. Baird fits a filter to a searchlight lens permitting only infrared rays to pass. The rays cannot be seen, but the objects they strike are made plainly visible to the human eye, even to a distance of more than a mile, inasmuch as infrared rays are better travelers than the rays of ordinary full light. Heretofore light has been considered nothing more than a sense of darkness and darkness nothing more than the absence of light, but light must now be considered as sunlight, infrared light or whatever other forms may be detected and named, while darkness is not a thing in itself, but a difference in eyes and their reaction to certain light rays. Thus the owl and the bat and the cat may depend upon rays little used by man, while man requires rays to which they are partly or wholly insensible.

MANY BABIES DIE IN FIRST TWELVE MONTHS

Out of the 2,432,600 babies born in the United States last year, 187,300, or 7.7 per cent, died before the end of twelve months, according to Herbert C. Hooks, secretary of the Evaporated Milk Association, in an address made at Chicago. The high percentage of mortality during the country's babies counted during the first month of life, said Mr. Hooks. "And death in a majority of cases was the direct result of lack of milk. Such a condition is a challenge to no civilized country can further hope to pass by."

In recent years doctors have discovered many facts that make a healthier, happier life for children. They have ascertained, for instance, in regard to food, that growing boys and girls need a quart of milk daily. "Fresh vegetables, fruits, cereals and plenty of water to drink are other essentials to the good health of children. The health regimen of a child's life also demands that, with plenty of hours of sleep, a proper amount of exercise be given. With these simple aids to well-being as a foundation there can be no question as to the favorable effect on the country's infant mortality rate."

CALIFORNIA CONDOR IS A VERY RARE BIRD

The fact the California condor is a very rare bird is clear when we realize that in the various museums and private collections of the world there are perhaps not more than fifty of its eggs in existence, says Nature magazine. It is not surprising, then, that collectors have offered them for sale, and there are always those who are willing to hunt out the last known of the California condor in order to get the prize, even though it is a violation of the law.

Silver Plated Hollow Ware ... \$7.95

—Complete savings on fine silver ware. Included are the well and oval, gravy boats, chop or relish dishes, water pitchers, tea pots, sugar and creamer sets, serving trays, vases and centerpieces.

TEN COMMANDMENTS HELD INADEQUATE

"It is a fine saying of Ruskin that the greatest thing any human soul ever does is to see something which is invisible. It is the man of vision, who with open eyes, looks beneath the surface of things that achieves life's greatest successes, whether on the lower or on the higher or on the highest plane. It was through vision that Columbus found a new continent and Savonarola became solitary teacher of righteousness in Florence."

part: "Believing in God has become exceedingly difficult because the increase in scientific knowledge has made impossible the simple unquestioning faith of our fathers. We knew the Bible to have been written by the hand of man, and we have no belief in miracles of the kind that form the basis of the old religious faiths. Some men try to solve the conflict between religion and science by destroying science

his candidacy this year, the Councilman said, included one from the Good Government Association of the Thirteenth District, of which C. Don Field is president. The association's letter to the Councilman said: "Our association stands for all the same implies and we desire to endorse a man who is known to possess the best character and who is known to everyone for his integrity. Realizing that you fulfill the above requirements, it

SOCIETY

BY JUANA NEAL LEVY

One of the affairs of the week will be the dinner party with which Mr. and Mrs. George Bishop are entertaining tomorrow evening at their home in Lorraine Boulevard, the affair to be in honor of Mr. and Mrs. Gordon Wallace Waites, who are leaving in April for a summer abroad. About fifty guests will be included and the decorations and appointments will carry out the St. Patrick's Day motif.

Mrs. Bishop is entertaining as house guest Mrs. Elbert Schroeder of San Jose, who arrived Saturday for several weeks' visit here.

For Visitor

Mrs. B. H. Rupp and Mrs. Maynard Hinton of Aberdeen, Wash., were guests of honor at a bridge tea in the Chinese room of the Mary Louise, Wednesday, when Mrs. Dean Yates, assisted by her sister, Mrs. Vina Gregory, was hostess. The decorations and appointments were carried out in Chinese motif. Covers were arranged for twenty guests.

At Clubhouse

One of the affairs of recent date was the dinner-dance with which Adolph Amberg entertained Saturday evening at the Surf and Sand Club at Hermosa Beach, the affair being in honor of Mrs. C. H. Rupp.

CHEF WYMAN'S Suggestions

TOMORROW'S MENU

Breakfast
Chilled Diced Oranges and Grapefruit
Ham Omelet
Jam
Milk
Coffee

Luncheon
Potato Pork Dumplings
Celery and Apple Salad
Cranberry Pie
Milk
Dinner
Purée of Lentils
Pickles
New England Boiled Dinner
Pumpkin Pie

Milk
Coffee
POTATO PORK DUMPLINGS
Mix four cups of peeled and sliced potatoes with one spoonful of salt and enough sifted flour to make a soft dough; roll into small even-sized balls and roll into the center of each ball a small cube of fresh pork seasoned with salt, pepper and onion juice. Drop the balls into boiling salted water and boil for one and a half hours. Drain well, place in a hot plate and pour over melted butter mixed with finely chopped parsley.

PURÉE OF LENTILS
Cover two cups of lentils with warm water and let stand overnight; drain well, place in a soup pot, add slowly two quarts of water, bring slowly to a boil, skim and simmer for two hours. Place in a frying pan one tablespoonful of butter, one sliced onion, six branches of parsley, one bay leaf, and one-quarter of a teaspoonful of thyme; stir and cook until

of Mrs. Cone of New York City. Covers were arranged for eighteen guests.

Engagement Announced
Formal announcement is made by Mr. and Mrs. Fred E. Lambertson, 1727 Grenshaw Boulevard, of the engagement of their daughter, Miss Margaret Lambertson, to Lewis Edwards, Merrill of Minneapolis, Minn. The wedding will be one of the events of early July.

Initiation Ceremonies
St. Chapter of Beta Tau Alpha Sorority, University of Southern California, conducted formal initiation ceremonies recently for Misses Monica Phares, Eris Sheppard, Woodie Lou Munaker, and Virginia Pape. Dinner was served at Mona Lisa Cafe in honor of the new initiates.

Betrothal Told
At a bridge tea given Saturday afternoon at the home of Miss Helen Lawson, Gertrude Bowles, Maud Ryan, Katherine Ault, Janet Culbertson, Juliette Dix, Margaret Haug, Elizabeth Loftis, Caroline Ayers, Elizabeth White, Dorothy Lohman, Evelyn Dennis and Josephine Eckhardt.

Honors Guest
Mrs. Charles A. Latham of Arlington, N. J., past president general of the Daughters of the Revolution, who is touring in Los Angeles, was the guest of honor at a luncheon Saturday at the Women's Athletic Club.

Turner-Carmen
One of the brides of the season is Mrs. Eugene Jerome Carmen (Louise B. Turner), daughter of Mr. and Mrs. Charles Flavel Turner of North McCadden Place. The wedding took place February 26, last, in the presence of relatives and a few friends at the home of the bride's parents. The decorations were carried out in honor of the bride's parents. The bride was escorted by Mr. Walter McDonald (Catharine Branch) and Miss Barbara Turner assisted as matron of honor and bridesmaid.

Wedding Date
Dr. and Mrs. Thomas Ritchie Ponton of 2118 Vista del Mar, Hollywood, have issued invitations for the wedding of their daughter, Miss Norma Ponton, to Glendon Louis Tremaine, younger son of Mr. and Mrs. Harry J. Tremaine of the Bryson. The ceremony is to take place in the Church of the Angels, Garvanza Way, Thursday evening, the 31st inst., with Rev. Archdeacon Portin of Winnipeg, a lifelong friend of the family, officiating. He will be assisted by the rector, Rev. Harry Parker.

Must Be Clean
Before putting any garment into dry water wash it thoroughly, taking care to remove all spots and soiled places. Rinse well and then dry the garment. This will mean a successful job.

Panties Patches
Mothers who have kiddies who wear the rubber pants protectors might like to know that the protectors can be mended with adhesive tape and will wear quite a time if proper care is taken in putting them on.

Better Service
Brooms should be treated to a bath every few weeks if you want good work out of them. Dip in soapsuds until well cleaned, rinse and hang up to dry. This will make them last longer and give better service during their life-time.

MORE LIFE TO THE SCARF
If the maline scarf has become limp and bedraggled, use a solution of gum arabic to rejuvenate it. Try one teaspoonful of powdered gum arabic and one pint of hot water, let cool and dip in the maline. Dry, and if not stiff enough, dip again. Press with a warm iron while still damp.

HOUSEHOLD SUGGESTIONS

LEMON LEAVES
Plant the lemon seeds and treat them as house plants. They grow into pretty shrubs, whose leaves may be used for flavoring. Few leaves tied in a cloth and put into the apple sauce for a few minutes gives it a delightful flavor. One or two placed in the bottom of the pan before pouring in the loaf cake batter will give a delicate flavor to the cake.

HOUSEHOLD SUGGESTIONS

MOTHERS AND THEIR CHILDREN

Lumberjack Shirts

One Mother Says:

When "everybody is wearing" some popular garment, children who are out of the prevailing fashion feel keenly. Mothers with nimble fingers can often copy these things at a fraction of their commercial price. Out of a woolen skirt of "loud" pattern, I made a lumberjack shirt. At the neck, wrists and waist, I knitted worsted bands in a contrasting shade, ran a lace through eyelets for fastening, and my daughter thinks she has a gem of a jacket. Boys like lumberjacks as well as girls, and there are plenty of bright plaided skirts, long discarded and stowed away, to help supply the juvenile demand.

PARADE FASHION

HERE IS A FASHION

TRAVELING COATS OF RICH MATERIALS SEEN

PARIS, March 12. (P)—Traveling coats have never been prettier than they are this spring in the collections of Paris. The range is wide, but the materials are uniformly rich in texture and color.

English wools are most frequently chosen by Paris designers for coats and costumes for sports and travel. One of the innovations of this hand was a local yet fitted jauntily into rayon sleeves. A slight fullness over the shoulders gives a pretty flare both to the front and to the back.

ORGANDY IS CHOSEN FOR THE YOUNG GIRL

PARIS, March 12.—Jeanne Lanvin has created a dress which will influence many American girl graduates when they go to choose their college dress. It is a gown of the day the diploma are passed out.

The frock is formed many tiers of organdy cut in large scallops. A deep three-tiered collar carries out the theme of the dress. The organdy gives the effect of a pale pink wild rose, but the dress is equally effective in white and other colors.

DETACHABLE CUFF FOR EVENING WEAR

LONDON, March 12.—Big detachable gauntlet cuffs for evening wear are proving very popular with Englishwomen who like unusual notes in their dress.

A fair-haired girl, seen at a London theater recently, showed the latest in evening dress. Her frock of leaf green velvet was a development of the now favored period style, and was made with a full skirt and a tight fitting bodice, finished with a flower pony at the "V" shaped corset.

The detachable gauntlet cuffs were of the same velvet. The effect was emphasized by an outstanding collar across the back of the neck.

VELVET IS ENCHANTED WITH METAL BEADING

PARIS, March 12.—Dresses inspired by the Orient are a specialty of Paul Poiret, the designer, on whom Paris has come to lean for exotic styles.

Many visitors to the Paris fashion show of the evening dress designed by Poiret this spring is of black velvet with a wrap around the waist and a wrap around the waist.

Mr. and Mrs. Turner entertained last evening with a Sunday-night supper in honor of their daughter, Miss Helen Turner, who is leaving for New York City.

DIET and HEALTH

by Lulu Hunt Peters, M.D.

THE SMALL APPETITE MYTH

I said that there might be some light eaters among the corpulent fraternity but that I had never met them. It is true that there are some of them who apparently eat moderately at the table—but what amounts they store away between meals!

Sometimes it is fruit, but more often it is candy or nuts or ice-cream, etc., etc., and it is not high in calories. Many people have the idea that fruit has no food value and they eat freely of it under that delusion.

Once when I was reckoning the calorie value of the diet of a Los Angeles woman who was overweight, I had to acknowledge that she was a light eater as she told me.

It came to 2000 C. which was just the amount that I judged a woman of her activities needed to keep her normal. Still skeptical, I inquired: "What else do you eat?"

"Nothing, Doctor," she assured me. "No candy? No ice-cream sodas?" "No, Doctor. No lot between meals, really!"

I looked at her puzzled. Finally I said sternly: "Something gave you your stomach besides what you have told me. What is it?"

"Well, I do take the juice of six or eight large oranges during the day, to help my constipation, but there is no food value in oranges."

So it was that she added 600 to 800 calories a day to her diet! Five hundred C. of any food more than the system needs, will add to your weight one-eighth of a pound a day, or forty-five pounds a year!

Can you see how important the knowledge of the food or calorie value of food is? Do you know anything about calories, the fuel units? No? You supposed the calorie theory was applied?

Well, it isn't. In the first place, there is no "calorie theory" any more than there is a "part theory" or a "husel theory."

The explosion of calories is another bit of misinformation put into circulation by lay writers who know nothing of scientific dietetics nor of what calories really are. It is a mistake to go to the other extreme and say that we are going to teach you something about those calories, painless.

Tomorrow you can have 1000 of 'em.

It is pretty generally agreed that when a child of his own volition begins to use the left hand instead of the right, that it is a wise thing to let him go to the other hand.

Most people are naturally right handed, but it sometimes happens that certain motor nerves are better developed on the opposite side in some children, and naturally they will make use of this side in preference to the other.

Why this is no one knows, but since it is a natural and not an acquired habit with them, it is well to allow it to remain unaltered.

It has been said, I do not know with what truth that a child who is forced to use his right hand when he is natural for him to use the left one, will develop nervous habits, chief among which is stammering.

REGULARITY

The subject of regularity in feeding comes up frequently in this department. It seems to be a subject which cannot receive too much stress. The child who refuses to go to bed at the proper hour, has not been trained from infancy to sleep at this time.

If he had been he would never dream of rebelling at his bed time, or any nap time, though children do outgrow naps as they outgrow the necessity for so much sleep in the day time.

His bed time should be a rigid one from birth and he will not only sleep but he will be happy. Habits like these, which are always going to redound to the benefit of the child, cannot be made too strong by constant repetition.

Feeding at regular hours must be stated couple are often strangers to each other until they meet just before the trifling ceremony which takes place to marry them.

ARTIST PRODIGALS

Isadora Duncan, the famous dancer, is in want in Paris, and a collection is being made to set her on her feet again. Otto Kahn, one of the most liberal supporters of this movement, said in New York the other day:

"Isadora Duncan, like most artists of genius, is too generous, too generous to herself, to be a success. She is a woman, for there is nothing like a career for a woman in Mohammedan North Africa. The only thing she can do is to get another husband and if she has a father he is called upon to find a mate for his daughter. It frequently happens that a woman has three or four husbands in the course of her life. Marriages are always made by the parents and the

stated couple are often strangers to each other until they meet just before the trifling ceremony which takes place to marry them.

Isadora Duncan, the famous dancer, is in want in Paris, and a collection is being made to set her on her feet again. Otto Kahn, one of the most liberal supporters of this movement, said in New York the other day:

"Isadora Duncan, like most artists of genius, is too generous, too generous to herself, to be a success. She is a woman, for there is nothing like a career for a woman in Mohammedan North Africa. The only thing she can do is to get another husband and if she has a father he is called upon to find a mate for his daughter. It frequently happens that a woman has three or four husbands in the course of her life. Marriages are always made by the parents and the

stated couple are often strangers to each other until they meet just before the trifling ceremony which takes place to marry them.

Makes every coffee count—because of its concentrated flavor

The economy of M-J-B is merely a lesson in simple arithmetic. Here it is—

M-J-B is a concentrated coffee. That means it is extra-rich in strength and flavor. We blend it that way—always have. And that's why you can use less of M-J-B to the cup and still enjoy a fine, flavor-rich cup of coffee.

Now consider that the average family uses 40 cups of coffee per week and you begin to realize how M-J-B makes every coffee count. You get more in the way of coffee contentment and it costs you less in the long run. Isn't that, after all, the only kind of economy that counts?

M-J-B meets every taste in Coffee
